Approaches to Early Childhood and Elementary Education Francis Wardle, 2009 This book covers a vast range of different philosophical and practical approaches to early education from Free Open schools and Waldorf education to the Core Curriculum and the learning standards approach of the U S federal No Child Left Behind Act By the early years it is meant the ages from infancy through the end of elementary school While some of the approaches such as Montessori and Reggio Emilia are best known for the pre school years and the standards approach is best known for American K 12 education there is more and more overlap and merging across early childhood and elementary education approaches world wide All the approaches covered in this text can be seen in programs from infancy through the end of elementary school even if each may focus on a certain age within this time frame We are seeing major changes in infant pre kindergarten and elementary school

education approaches world wide These changes are the result of several major factors including the extensive and powerful new brain research globalisation of markets ideas and the Internet rapid demographic shifts in many developed countries and a move to more universal education in developing countries and more universal pre school programs in developed countries Thus the focus of this book in describing a variety of current education approaches with a detailed description of their historical and philosophical foundations and their current practice is very timely
