

Research Papers

Writing Your Biology Research Papers

A key component of this course is writing two research papers. This will give you the opportunity to apply what you are learning about Biology to your own life. Each paper will make up 10 percent of your grade. The following information will serve as a guideline in helping you construct your paper for this course. Pay special attention to the paper requirements, tips, and evaluation sections. The tips are important because they will explain how to go about writing a successful paper.

You will want to refer back to this topic periodically as you write your paper to make sure you are meeting the research paper guidelines.

Part 1 Research Paper Topics

Topics

For this course, you will have two pre-selected topics to choose from for each research paper you write. For the Part 1 Research Paper, you will choose from topics that are specifically geared to the information you are learning in Part 1 of the course; for the Part 2 Research Paper, you will choose one of the topics that are specifically geared to the information you are learning in Part 2 of the course.

Topic 1:

Cancer is a class of diseases characterized by an uncontrolled growth of cells in the human body. There are many different types of cancers, and cancer may affect people of all ages. Compose a research paper that investigates and reports on the biological and environmental aspects of cancer. Use library resources and the Internet to conduct your research. Your paper should address, but not be limited to, the following questions and concepts:

- Discuss the structure of cancer at the cellular level.
- What happens to the cells that can trigger cancer to develop?
- How does cancer spread?
- What are some common cancer risk factors and what types of cancer could they lead to? Include three or more.
- Why are cancer-causing factors in lifestyle or the environment difficult to identify?
- How can people protect themselves from exposure to known risk factors?
- Research and report on current findings related to the benefits of exercise as a treatment for cancer.
