

## About this manual

### The purpose

The purpose of this manual is to help you get the best value from your vehicle. It can do so in several ways. It can help you decide what work must be done, even if you choose to have it done by a dealer service department or a repair shop. It provides information and procedures for routine maintenance and servicing, and it offers diagnostic and repair procedures to follow when trouble occurs.

We trust you use the manual to handle the work yourself. For many smaller jobs, doing it yourself may be easier than arranging an appointment to get the vehicle into a shop and making the trip to have it and pay it up. More importantly, a lot of money can be saved by avoiding the expense the shop must pass on to you to cover its labor and overhead costs. An added benefit is the sense of satisfaction and accomplishment that you feel after doing the job yourself.

### Using the manual

This manual is divided into Chapters. Each Chapter is divided into numbered Sections, which are headed by bold-type letters between horizontal

lines. Each Section consists of consecutively numbered paragraphs.

At the beginning of each numbered Section, you will be referred to any illustrations which apply to the procedures in that Section. The reference numbers used in illustration captions (shown) the pertinent Section and the Step within that Section. That is, Illustration 5.2 means the illustration refers to Section 5 and Step (or paragraph) 2 within that Section.

Procedures, most described in the text, are not normally repeated. When it's necessary to refer to another Chapter, the reference will be given as Chapter and Section number. Cross references given without use of the word "Chapter" apply to Sections within paragraphs in the same Chapter. For example, "See Section 8" means in the same Chapter.

References to the left or right side of the vehicle assume you are sitting in the driver's seat, facing forward.

Even though we have prepared this manual with extreme care, neither the publisher nor the author can accept responsibility for any errors in, or omissions from, the information given.

---

#### NOTE

A Note provides information necessary to properly complete a procedure or information which will make the procedure easier to understand.

#### CAUTION

A Caution provides a special procedure or special steps which must be taken while completing the procedure where the Caution is found. Not heeding a Caution can result in damage to the assembly being worked on.

#### WARNING

A Warning provides a special procedure or special steps which must be taken while completing the procedure where the Warning is found. Not heeding a Warning can result in personal injury.

---

## Introduction to the Ford Mustang

The Ford Mustang is available in two-door sport coupe or convertible body styles and has a conventional front-engine-rear-wheel drive layout.

The available engines on the models covered by this manual are: a 3.0L V6, a Single Overhead Valve four-valve per cylinder (SOHC) 3V 4.0L V6, a Dual Overhead Valve four-valve per cylinder (DOHC) 3V 4.0L V6 or a dual-valve 5.0L V8 engine. All models use an electronically controlled multi-point fuel injection system. Later models are equipped with On Board Diagnostic (Second generation (OBD II) computerized engine management system. OBD II monitors engine and emissions system operation for malfunctions. The check engine light on the instrument panel will illuminate if any computered malfunction occurs.

Power from the engine is transmitted through either a five speed manual or four speed automatic transmission and a drivetrain to the

differential which is mounted in the solid rear axle assembly. After made the assembly carry power from the differential to the rear wheels.

Suspension is independent on the front, utilizing struts and lower control arms to locate the knuckle assembly at each wheel. Coil springs are mounted between the lower control arm and the frame. The rear suspension features coil springs and shock absorbers.

The steering gear is a power assisted rack and pinion type that is mounted to the front of the engine compartment with rubber insulators.

The brakes are disc at the front and the rear with vacuum assist air standard equipment. Models equipped with a 3.0L DOHC 3V engine offer four-wheel disc assisted brakes as standard equipment. Anti-lock Braking Systems (ABS) are optional on all models.
