"Evolution is not Science"**

Evolutionist: **"The Study of evolution is science"**

"Science is defined as, 'the intellectual and practical activity encompassing the systematic study of the structure and behaviour of the physical and natural world through *observation* and *experiment*.'

Whether it's through biology, genetics, paleontology, molecular biology or anthropology, the study of evolution fits the definition perfectly.

Your wish for it not to be science really is simply a wish."
