Conference Record of Papers Presented at the ... Vehicle Navigation and Information Systems Conference, 1995

Value-Added Records Management Karen L. Sampson, 2002-10-30 Buried in paper As new technologies threats of litigation and the onslaught of e business innovations change the very nature of work organizations need ways to safely and properly manage information This revised and expanded edition of Sampson's earlier classic shows how records and information management practices jointly contribute to an organization's financial well being be it public or private non or for profit Recordkeeping practices affect business objectives processes functions and ultimately everyone in the organization This book covers recordkeeping in all media including paper microfilm electronic and other storage modes Instead of focusing on records media and information technologies Sampson shows why organizations must focus on the content and value of records as they are determined by the organization's operating needs the government's requirements and relevant legislation She shows how to create an essential uniformity in records management one that integrates the many media systems you use into a single master system Also included is a cautionary section explaining why skillful records and information management is essential to safeguard an organization's legal rights This book provides fresh management perspectives and new business strategies showing how to cope with the growing dependence on electronic records
