QUICK GUIDE - CODING CHEAT SHEET

How to use this cheat sheet:

- The "Initial" service is the first replacement and primary infusion for the intravenous fluid, paste or service provided for the patient and is reported once per day unless it is used to replace the service done.
- If an infusion or injection is a subsequent or concurrent infusion, report ICD-10 the full each service within that group of services. Then a subsequent or concurrent code from the appropriate section should be reported.
- The time of the service should be billed only upon the administration time for the infusion, service beginning to and concluding the infusion have been included in the infusion service code, unless separately reported. This includes starting the IV and monitoring the patient post infusion.
