*Nursing Theory, Postmodernism, Post-structuralism, and Foucault* Olga Petrovskaya,2022-09-30 Nursing Theory Postmodernism Post structuralism and Foucault critiques mainstream American nursing theory and its use of post structural theory comparing and contrasting how postmodern and post structural ideas have been used fruitfully in nursing research and theorizing elsewhere In the late 1980s references to post structuralism and Michel Foucault started to appear in nursing journals Since then hundreds of

nursing publications have cited postmodernism and key post structural ideas such as power knowledge discourse and de centring the human subject In *Nursing Theory Postmodernism Post structuralism and Foucault* Olga Petrovskaya argues that the application of these ideas is markedly different in American nursing theory scholarship compared to nursing theoretical scholarship generated outside the canon of unique nursing theory Analysing relevant literature from the late 1980s through 2010s she demonstrates this difference arguing that American nursing theory calcified into a matrix of dogmas built on logical positivism wary of borrowed theory and loyal to a unique nursing science Post structural ideas that fit the matrix such as criticism of medicine are sanctioned whereas ideas sceptical of humanistic agendas including those that challenge American nursing theory are rendered meaningless In contrast other nurse scholars from Britain Australia Canada and what the author calls the American enclave group engaged with postmodern and post structural perspectives to enrich their research and invite readers to rethink nursing practice The book showcases examples of their intelligent creative theorizing Arguing that American nursing theory enervated nursing theorizing Petrovskaya calls for opening this matrix to theoretical and methodological creativity less rigid categories of scholarship and healthy self examination Making the case that post structural ideas are vital for nurses ability to critically reflect on their discipline and profession this is a necessary read for all those interested in nursing theory philosophy and praxis Chapter 1 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

subject Literature Medieval Literature grade 1st University of Chester course MA History language English abstract Using fictional and factual literature the dissertation attempts to understand the multiplicity of masculinity and individual knightly motivations caused by competing factual and fictional depictions of chivalry Overall histories of chivalry and masculinity between c 1350 c 1410 in France have been treated singularly The ideal qualities of chivalry have been treated as the reality for all knights when in fact chivalric ideologies were unique to individuals and overlapped in both factual and fictional literature of the period Chivalry in the Middle Ages has often been defined as the religious and moral system of behavior that the perfect knight was expected to follow However singular definitions of chivalry should be disregarded because displays of medieval masculinity and chivalry were a complicated mixture of social conditions institutional influence and individual motivation
