What is an Exploratory Essay?

As it is clear from the title, your task is to explore some specific topic. You do not need to stand for or against it but only to provide all possible approaches to it. In some sense, you do not need to invent something new but only to compile the existing thoughts on the field. However, it would only benefit you if you add some new meaning to the topic or come to some unexpected conclusion. The restriction is quite conditional, and you are free to state your own thought on the topic. But still, do not forget to use existing opinions and approaches. You should be objective and pay equipollent attention to everything that has a connection with your topic. You do not have a specific audience so feel free to write it in your own way but still remember about some common audience that could be interested in your essay.

How to Choose a Good Exploratory Essay Topic

It may be on the field of ethical questions, collisions between cultures (such as Swiss initiative against the construction of minarets), historical and contemporary questions on politics inside the culture. These examples are far not the final list, and it would be great if you find something more specific. In other words, you need to find something that excites public opinion. It implies the existence of more than even two opinions on the topic. You are not asked to solve this problem but only to explore why it is still relevant. After reading your essay, there should leave the same quantity of the questions or even more. Your aim is to acquaint your reader with this question and explain him why does he or she need to know this information.
