**Law and Regulation of Mobile Payment Systems** Joy Malala,2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya

**Routledge Handbook of National and Regional Ocean Policies** Biliana Cicin-Sain,David Vanderzwaag,Miriam C. Balgos,2015-05-15 This comprehensive handbook prepared by leading ocean policy academics and practitioners from around the world presents in depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross cutting and integrated national and regional ocean policy All chapters follow a common framework for policy analysis While most coastal nations of the world already have a variety of sectoral policies in place to manage different uses of the ocean such as shipping fishing oil and gas development in the last two decades the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated ecosystem based vision for the governance of ocean

areas under their jurisdiction This includes goals and procedures to harmonize existing uses and laws to foster sustainable development of ocean areas to protect biodiversity and vulnerable resources and ecosystems and to coordinate the actions of the many government agencies that are typically involved in oceans affairs The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992 2002 and 2012 sustainable development summits The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated precautionary and anticipatory Overall the book provides a definitive state of the art review and analysis of national and regional ocean policies around the world

**The Asia-Pacific Trade Agreement** Joong-Wan Cho,Rajan Sudesh Ratna,2016

International trade and investment have enabled many countries in the Asia Pacific region to boost economic growth and have lifted millions out of poverty As the Asia Pacific region continues to thrive economically trade and investment barriers are being dissolved and eliminated As countries begin to depend on each other more trade policy is gradually becoming a useful measure to achieve inclusive and sustainable development Trade and investment are linked to the environment and social issues hence their impacts are also multi dimensional It has now been recognized that sustainable production and consumption are essential for sustainable development Countries realize that they are not able to approach global and regional problems on their own and require cooperation both at the level of government and business As a result the region has been active in concluding regional cooperation frameworks which routinely are centered on trade and investment In the meantime business has forged regional integration through the formation of regional value chains and production networks while governments have paved the way for the expansion of such production networks through the formation of regional trade agreements and economic partnerships Thus the Asia Pacific Trade Agreement APTA which is the oldest preferential trade agreement in the region with a large consumer base can play an important role in filling this gap Given a slow progress in the multilateral negotiations in the WTO especially when the members have started questioning the utility of the negotiations after 15 years and a lack of consensus on how to move forward the regional trade agreements can play a vital role Even if they pose a challenge to the multilateralism selected liberalisation of trade and economy in present time can become a building block for future multilateral negotiations One of the reasons for the surge in these preferential trade agreements is to make binding commitments on WTO plus and WTO beyond issues While there are many agreements that exist in Asia and the Pacific there is no such attempt to consolidate them in one umbrella framework Understanding the benefits of the consolidation one such initiative was started by ESCAP a few years back The RECI initiative for market integration could well be facilitated by APTA however it cannot deliver unless it transforms itself in a new generation agreement Regional integration and cooperation are also important to meet the 2030 agenda for sustainable development Instead of wasting resources in discussing a new institutional framework it would be more effective to use the existing framework and for the Asia Pacific economies the APTA provides an existing institutional platform The cases discussed in this book prepare a ground for the future and it is expected that all the stakeholders member States of ESCAP private sector as

well as researchers would benefit from this publication on APTA South South Regional Integration and Sustainable Development **Engineering and Mining Journal** ,1906 *South Dakota History* ,2014 **Wildlife Research** ,2014 The Asia-Pacific Disaster Report 2015 United Nations Publications,2016 Sales no E 17 II F 13 Cover page 2 *Rethinking Fiscal Policy for the Arab Region* ,2018 **The Calcutta Gazette** ,1909 **Jadavpur Journal of International Relations** ,2016 The State of African Cities, 2014 United Nations Human Settlements Programme,2013 Nairobi UN Habitat c2014 9789211325980 *The Publisher* ,1913 **The State of African Cities, 2014** United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change
