**imwe imba - the other room** Munashe Wadzanai, Anne Schlechters, Thomas F. Andersson, 2022-11-02 Munashe is a bright adolescent girl living in Zimbabwe. She feels a pressure to leave Zimbabwe and to follow most of her peers to a university or to work in the West. However, she is not convinced that this is what she really wants. Via Thomas, an experienced European scientist and manager initiating a technical Start up Hub at her boarding school, Munashe comes in contact with Anne. *Imwe imba - the other room* is a novel covering the last 2 high school years of Munashe and Anne in letters between the young women, as well as from Thomas to Simon, his now retired personal and business coach. Through the letters, Anne and Simon discover unknown and fascinating aspects of the southern African society. Especially since Thomas includes stories from Nelson, Munashe's grandfather and small holder farmer. Based on the stories and hearing about Munashe's activities in more technical projects, Anne develops a critical attitude towards both the current Western school system and the effectiveness of traditional Western development or aid projects. On the other side, Munashe learns that Europe is not the land of milk and honey for everybody. Munashe and Anne, assisted by Thomas, review the so-called development work activities in emerging markets and propose a promising approach to economically uplift more rural areas. In part 2, the Start up Hub activities are proven to be sustainable, and Munashe asks where do we want to go. A design is made for a more ideal global society, and the issues faced implementing their ideas are discussed. The letters in this novel cover a wide spectrum of topics: personal struggles and contemplations, educational and business practices, science and art, geopolitics, and historical backgrounds, change management, as well as social developments. Each letter is written in an accessible language and underlined with references to allow the reader to explore more. Most of all, *imwe imba* wants to create awareness: Awareness for the wonderful real life in Africa, Awareness that Africa is prosperity, Awareness that our younger generation is perfectly able to initiate change, That a single person can initiate change, That complaining or being upset about various unacceptable global happenings or actions is not enough, That a further polarisation and blaming the others doesn't help, That we have to do things that we should not fear change but embrace the changes that are needed to come to the necessary improvements.

**Secrecy and Methods in Security Research** Marieke De Goede, Esmé Bosma, Polly Pallister-Wilkins, 2019-08-13 This book analyses the challenges of secrecy in security research and develops a set of methods to navigate, encircle, and work with secrecy. How can researchers navigate secrecy in their fieldwork when they encounter confidential material, closed-off quarters, or bureaucratic rebuffs? This is a particular challenge for researchers in the security field, which is by nature secretive and difficult to access. This book creatively assesses and analyses the ways in which secrets operate in security research. The collection sets out new understandings of secrecy and shows how secrecy itself can be made productive to research analysis. It offers students, PhD researchers, and senior scholars a rich toolkit of methods and best practice examples for ethically appropriate ways of navigating secrecy. It pays attention to the balance between confidentiality and academic

freedom and integrity The chapters draw on the rich qualitative fieldwork experiences of the contributors who did research at a diversity of sites for example at a former atomic weapons research facility inside deportation units in conflict zones in everyday security landscapes in virtual spaces and at borders bureaucracies and banks The book will be of interest to students of research methods critical security studies and International Relations in general The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Going Places** Julie Fry, Hayden Glass, 2016-03-15 Migration and the movement of people is one of the critical issues confronting the world's nations in the twenty first century This book is about the economic contribution of migration to and from New Zealand one of the most frequently discussed aspects of the debate Can immigration in economic terms be more than a gap filler for the labour market and help as well with national economic transformation And what is the evidence on the effect of migration not just on house prices but also on jobs trade or broader economic performance Building on Sir Paul Callaghan's vision of New Zealand as a place where talent wants to live this book explores how we can attract skilled creative and entrepreneurial people born in other countries and whether our seventeenth region the more than 600 000 New Zealanders living abroad can be a greater national asset

**The Uneven Offshore World** Justin Robertson, Michael Tyralla, 2022-03-24 Informed by world systems analysis this book examines the shifting patterns of accommodation and resistance to the offshore world with a particular focus on Mauritius as a critical but underappreciated offshore node mediating foreign investment into India and Africa Drawing on a large pool of financial data and elite interviews the authors present the first detailed comparative study of the Mauritius India and Mauritius Africa offshore relationships These relationships serve as indicative test cases of the contemporary global tax reform agenda and its promise to rein in offshore finance Whereas India's economic power and multilateral track record have enabled it to actively shape this agenda and implement it in a robust manner most African countries have found themselves either unable to meet its stringent criteria or unwilling to do so out of fear that it might discourage investment Its impact on offshore financial centers has likewise been limited A few of the least sophisticated ones appear to have fallen by the wayside but the rest have either remained largely unaffected or like Mauritius succeeded in consolidating their operations and surviving the current round of regulatory headwinds The findings suggest that the contemporary global tax reform agenda has thus far not only failed to make good on its promise but also actually reinforced numerous existing power hierarchies The Uneven Offshore World is written in an accessible style and aimed at readers without specialized knowledge of tax issues

**The Routledge Handbook of Architecture, Urban Space and Politics, Volume I** Nikolina Bobic, Farzaneh

Haghighi, 2022-10-28 For architecture and urban space to have relevance in the 21st Century we cannot merely reignite the approaches of thought and design that were operative in the last century This is despite or because of the nexus between politics and space often being theorized as a representation or by product of politics As a symbol or an effect the spatial dimension is depoliticized Consequently architecture and the urban are halted from fostering any systematic change as they are secondary to the event and therefore incapable of performing any political role This handbook explores how architecture

and urban space can unsettle the unquestioned construct of the spatial politics of governing Considering both ongoing and unprecedented global problems from violence and urban warfare the refugee crisis borderization detention camps terrorist attacks to capitalist urbanization inequity social unrest and climate change this handbook provides a comprehensive and multidisciplinary research focused on the complex nexus of politics architecture and urban space Volume I starts by pointing out the need to explore the politics of spatialization to make sense of the operational nature of spatial oppression in contemporary times The operative and active political reading of space is disseminated through five thematic Violence and War Machines Security and Borders Race Identity and Ideology Spectacle and the Screen and Mapping Landscapes and Big Data This first volume of the handbook frames cutting edge contemporary debates and presents studies of actual theories and projects that address spatial politics This Handbook will be of interest to anyone seeking to meaningfully disrupt the reduction of space to an oppressive or neutral backdrop of political realities Chapters 1 and 23 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license
