Geography Paper June Examination Memorandum 2013:

Free Market Environmentalism for the Next Generation T. Anderson, D. Leal, 2015-02-04 This book provides a vision for environmentalism's future based on the success of environmental entrepreneurs around the world. The work provides the next generation of environmental market ideas and the chapters are co-authored with young scholars and policy analysts who represent the next generation of environmental leaders.

States of Fragility 2016 Understanding Violence OECD, 2016-11-30 The world is getting more violent and violence is occurring in surprising places. Over the past 15 years 3.4 billion people or almost half of the world's population have been affected by violence. The number of violent conflicts is decreasing but conflicts are killing more people.

Social Research: Issues, Methods and Process Tim May, Beth Perry, 2022-06-20 In this era of bountiful visual qualitative and informationalised knowledge of the social world a conscientious guide to social research is ever more valuable. This is a knowledgeably written, highly engaging and genuinely interesting book. Dr Pamela Odih BSoc Sc PhD Senior Lecturer Goldsmiths University of London UK. A timely focus on intersectionality, decoloniality, as well as digital participatory collaborative methods and the relationship between knowledge, power and action are all compelling new additions. Anastasia Christou Associate Professor of Sociology Middlesex University UK. This is the best kind of companion for social researchers: a clear, concise and practical overview of the foundations of the field grounded in critical reflection about ethics and power and skilfully assembled to both support and inspire. Dr Oliver Escobar Senior Lecturer University of Edinburgh UK. The longevity of May and Perry's Social Research is richly deserved, combining a sophisticated approach to the unity of theory, method and context with clarity and approachability. Malcolm Williams Professor and Co-Director of the Q Step Centre Cardiff University UK. Equally valuable for the newcomer and the experienced researcher, the book is elegantly structured and beautifully written, as is always the case with May and Perry's work. Davydd J Greenwood Goldwin Smith Professor of Anthropology Emeritus Cornell University USA. Corresponding Member Spanish Royal Academy of Moral and Political Sciences. Fully revised and updated Social Research: Issues, Methods and Process 5th edition bridges the gap between theory and methods in social research and clearly illuminates these essential components for understanding the dynamics of social relations. The book is divided into three parts. Part One examines the issues and perspectives in social research. Part Two discusses the methods and Part Three is devoted to reflections on the process of research. Updates to this edition include two new chapters on working across boundaries and digital research reflecting critical developments that are shaping the landscape of social research. Broadening consideration of issues including intersectionality and decolonial research methods along with the relationship between knowledge, power and action. Revised Discuss Discover Do sections with expanded suggestions for follow-on activities. Carefully integrated reflections and lessons learned from the COVID-19 pandemic throughout to draw attention to critical issues. The authors aim to support and inspire with a clear and accessible writing style that enables students to identify the key issues in social

research and how to successfully navigate them Social Research 5e is the ideal companion to social research for students across the social sciences and for academics and practitioners wishing to remain well informed on key developments in the field Beth Perry is Professor of Urban Knowledge and Governance and Director of the Urban Institute at the University of Sheffield UK Tim May is a Professorial Fellow at the University of Sheffield UK and an Honorary Distinguished Professor at the University of Cardiff UK

Qanat Dale Lightfoot,2024-08-22 Qanats are ubiquitous yet unseen and a clever way to create streams where none exist in nature For 3 000 years they have made life possible in impossible places and still sustain life and livelihoods in many countries today After 30 years of field research Dale Lightfoot provides the first comprehensive study of the qanat and sheds new light on their unique locations and distribution their origins and history their ecology current status and use Qanats are remarkably engineered underground aqueducts using gravity to bring water to villages and towns where reliable flowing surface water is scarce or absent Although an ancient technology more than 46 000 of them still flow around the world today with their sustainable nature making them a focus of renewed interest Richly illustrated with images and a series of original maps this is the most complete record to date of the locations and distribution of qanats worldwide including examples from the Middle East North Africa Europe Central Asia China India Mexico and South America
