Geographies of Writing Nedra Reynolds,2007-09-03 Twenty first century technological innovations have revolutionized the way we experience space causing an increased sense of fragmentation danger and placelessness In Geographies of Writing Inhabiting Places and Encountering Difference Nedra Reynolds addresses these problems in the context of higher education arguing that theories of writing and rhetoric must engage the metaphorical implications of place without ignoring materiality Geographies of Writing makes three closely related contributions one theoretical to reimagine composing as spatial material and visual one political to understand the sociospatial construction of difference and one pedagogical to teach writing as a set of spatial practices Aided by seven maps and illustrations that reinforce the book s visual rhetoric Geographies of Writing shows how composition tasks and electronic space function as conduits for navigating reality
