Guide Questionnaire Rating Scale:

Practitioner's Guide to Empirically Based Measures of Anxiety Martin M. Antony, Susan M. Orsillo, Lizabeth Roemer, 2006-04-10 This volume provides a single resource that contains information on almost all of the measures that have demonstrated usefulness in measuring the presence and severity of anxiety and related disorders. It includes reviews of more than 200 instruments for measuring anxiety related constructs in adults. These measures are summarized in quick view grids which clinicians will find invaluable. Seventy five of the most popular instruments are reprinted and a glossary of frequently used terms is provided.

Practitioner's Guide to Empirically-Based Measures of Depression Arthur M. Nezu, George F. Ronan, Elizabeth A. Meadows, Kelly S. McClure, 2006-05-02 This book is intended to guide clinicians and researchers in choosing practical tools relevant for clinical assessment, intervention and or research in this area. It contains over 90 reviews of measures of depression and depression related constructs. It provides summary tables comparing and contrasting different instruments in terms of their time requirements, suitability, costs, administration, reliability and validity and sample copies of 25 instruments in the public domain.

Nursing Case Management Elaine Cohen, Toni G. Cesta, 2004-08-26 This classic resource offers complete coverage of nursing case management from theoretical background and historical perspective to practical applications and how the field is changing to meet the challenges of today's health care environment. It focuses on the implementation of various case management models used throughout the United States and abroad. Key topics include the impact of public policy on health care, understanding the effects of health care reimbursement and its application at the patient level, throughput and capacity management, the impact of the revenue cycle, compliance and regulatory issues, and principles needed to improve case manager/client interaction. This helpful resource is designed to help nurse case managers assess their organization's readiness for case management, prepare and implement a plan to achieve necessary improvements, and evaluate the plan's success. Includes numerous proven case management models currently being used in institutions across the country. Organized to take the nursing case manager on a journey from the historical development of nursing case management to the successful implementation of a case management program. Offers detailed guidance for planning, implementing and evaluating a case management program. Outlines the planning process with information on key topics such as analysis of the organization, the role of the organization's members, selection criteria for new case managers, case management education, credentialing and partnerships. Features guidelines for implementing a case management program with information on ethical issues, technology, compliance and regulatory issues. Addresses the evaluation component of developing and implementing a case management program by presenting information on outcomes, research, documentation, continuous quality improvement, measuring cost effectiveness, care continuum and evidence based practice. Presents acute care and community based models of case management. Highlights the evolution of collaborative models of case management addressing key elements of joint decision making, shared accountability and interdisciplinary systems of care. Addresses

health care delivery through case management and public policy by presenting current legislative issues and their affect on both health care reimbursement and the application of care at the patient level Presents the insights experiences and advice of nursing administrators who have researched and successfully implemented nursing case management programs in various facilities
