Guide To Grow Island:

The Growing Island Alexander Tutas,2025-10-14 The book tells how Thomas once met extraterrestrials They were half humans half dolphins and they lived in the water They arrived from a planet that they had brought to such a state that life there became simply impossible Upon reaching Earth they met Thomas who agreed to find them a place to live In return they gave him the ability to transform one substance into another Thus he became the owner of a technology for transforming garbage into construction and other materials for building an island around which the dolphins settled Thomas organized waste processing centers across Europe The liquid that resulted from this process was delivered to the island via pipelines and there transformed into other substances Over time the island began to grow and an archipelago was formed which tourists started to visit And another independent state was created Thomas and his team were accompanied by various adventures during the process of building the island A Guide to Modern English History William Johnson Cory,1880
