*Mastering the Art of Public Speaking* Michael J. Gelb, 2020-09-08. Seventy-four percent of Americans suffer from glossophobia, the fear of public speaking. In fact, even top professional speakers and accomplished actors experience butterflies before presenting. They never eliminate the butterflies; they just teach them how to fly in formation. How Michael Gelb's techniques will help you clarify and shape your message so that your audience, no matter how big or small, in person or virtual, will care about it. Once the message is clear, he teaches you how to convey it in memorable, creative, and effective ways. Gelb shows that public speaking is a skill anyone can learn and enjoy. *Mastering the Art of Public Speaking* will guide you to rediscover your natural gift for communication while strengthening confidence and presence.

Sigurd Bergmann, Kate Rigby, Peter Manley Scott, 2023-05-31. This timely collection of essays by leading international scholars across religious studies and the environmental humanities advances a lively discussion on materialism in its many forms. While there is little agreement on what materialism means, it is evident that there is a resurgence in thinking about matter in more animated and active ways. The volume explores how debates concerning the new materialisms impinge on religious traditions and the extent to which religions with their material culture and beliefs in the Divine within the material can make a creative contribution to debates about ecological materialisms. Spanning a broad range of themes including politics, architecture, hermeneutics, literature, and religion, the book brings together a series of discussions on materialism in the context of diverse methodologies and approaches. The volume investigates a range of issues including space and place, hierarchy and relationality, the relationship between nature and society, human and other agencies, and worldviews and cultural values. Drawing on literary and critical theory and queer philosophical, theological, and social theoretical approaches, this ground-breaking book will make an important contribution to the environmental humanities. It will be a key read for postgraduate students, researchers, and scholars in religious studies, cultural anthropology, literary studies, philosophy, and environmental studies. *Books in Print*, 1991. **Who's who in**
