pragmatics are illustrated with scripted interactions culled from the series *House* which help appreciate the complexities of the three concepts at hand. Apart from affording new insights into the nature of irony, deception, and humour, this book critically examines previous literature on these notions as well as relevant aspects of Grice's philosophy of language. Giving a state-of-the-art picture of untruthfulness, this publication will be of interest to both experienced and inexperienced researchers studying Grice's philosophy of irony, deception, and/or humour.

*Foodways in Roman Republican Italy* Laura M. Banducci, 2021-03-01. *Foodways in Roman Republican Italy* explores the production, preparation, and consumption of food and drink in Republican Italy to illuminate the nature of cultural change during this period. Traditionally, studies of the cultural effects of Roman contact and conquest have focused on observing changes in the public realm, such as changing urban organization and landscape and monumental construction. *Foodways* studies reach into the domestic realm: How do the daily behaviors of individuals express their personal identity, and how does this relate to changes and expressions of identity in broader society? Laura M. Banducci tracks through time the foodways of three sites in Etruria from about the third century BCE to the first century CE: Populonia, Musarna, and Cetamura del Chianti. All were established Etruscan sites that came under Roman political control over the course of the third and second centuries BCE. The book examines the morphology and use/wear of ceramics used for cooking, preparing, and serving food in order to deduce cooking methods and the types of foods being prepared and consumed. Change in domestic behaviors was gradual and regionally varied, depending on local social and environmental conditions, shaping rather than responding to an explicitly Roman presence.
