Finley,2011-09-13 This book provides a thorough compilation of the types specific incidents relevant agencies theories responses and prevention programs relevant to crime and violence in schools and on campuses

Encyclopedia of School Crime and Violence is the most comprehensive reference on this deeply unsettling topic ever undertaken. No other volume integrates as much information about the many types of crime and violence occurring in schools as well as the variety of responses and prevention efforts aimed at curbing it. In a series of alphabetically organized entries, Encyclopedia of School Crime and Violence looks at significant cases both at high schools and on college campuses with coverage that includes professional and community responses and theories as to why these events happened. Unlike other volumes that focus only on the most sensational events, the encyclopedia spans the full spectrum of school crime, not just the high profile cases like Columbine and Virginia Tech, but the insidious problems of theft, bullying, cybercrime, violence, sexual assault, and more. Coverage includes information on some cases outside the United States as well as entries on the government agencies and other organizations dedicated to analyzing and eradicating school crime and violence.

Corporate Disasters: Gale, Cengage Learning, 2017-04-21. Corporate Disasters: What Went Wrong and Why profiles the biggest corporate mistakes or misdeeds throughout history, covering the people, the times, the decisions made. This volume covers Mergers and Acquisitions. Each essay puts the business and its operators in the context of its own time, explaining the market, social, and technology forces at play, and each explores the key make-or-break decisions that led to disaster. Music, Social Media and Global Mobility Ole Mjos, 2013-07-03. This book is about the relationship between media communication and globalization, explored through the unique empirical study of electronic music practitioners' use of the global social media MySpace, Facebook, YouTube, and Twitter. To understand the significance of the emerging nexus between social media and music in a global context, the book explores various aspects of production.

distribution and consumption among electronic music practitioners as they engage with global social media as well as a historical political and economic exposition of the rise of this global social media environment Drawing on interview based research with electronic music artists DJs producers and managers together with the historical portrayal of the emergence of global social media this pioneering study aims to capture a development taking place in music culture within the wider transformations of the media and communications landscape from analogue to digital from national to global and from a largely passive to more active media use In doing so it explores the emergence of a media and communications ecology with increased mobility velocity and uncertainty The numerous competing and rapidly growing and fading social media exemplify the vitality and volatility of the transforming global media communication and cultural landscape This study suggests that the music practitioner s relationship with MySpace Facebook YouTube and Twitter and the key characteristics of these global social media alter aspects of our practical and theoretical understandings of the process of media globalization The book deploys an interdisciplinary approach to media globalization that takes into account and articulates this relationship and reflects the enduring power equations and wider continuities and changes within the global media and communications sphere
