Why did the Roman Empire decline? Charles Brady, Philip Roden, 2011 **Teaching in a Globally-Connected World**

Ervin F. Sparapani, Pamela L. Ross McClain, 2016-07-29 This book examines the current social political economic and religious climate of the world makes projections for the future and then makes suggestions for what the contributors believe educators need to think about in order to adequately prepare young people to successfully navigate that future We live in a globally connected world and young people as they move into the future need to be prepared to live in that future Schools and teachers tend to focus on the present which is okay however schools and teachers must decide what is important to know in the present in order for young people to be successful in the future The responsibility of education today must be to prepare learners to live in an unknown future that is global and not be so focused on an uncertain present AP European History Premium, 2022-2023: 5 Practice Tests + Comprehensive Review + Online Practice Seth A.
