Linguistic Attractors David L. Cooper, 1999-06-15 The interdisciplinary linguistic attractor model portrays language processing as linked sequences of fractal sets and examines the changing dynamics of such sets for individuals as well as the speech community they comprise Its motivation stems from human anatomic constraints and several artificial neural network approaches It uses general computation theory to 1 demonstrate the capacity of Cantor like fractal sets to perform as Turing Machines 2 better distinguish between models that simply match outputs emulation and models that match both outputs and internal dynamics simulation and 3 relate language processing to essential computation steps executed in parallel Measure and information theory highlight the key variables driving linguistic dynamics while catastrophe and game theory help predict the possible topologies of language change It introduces techniques to isolate and measure attractors and to interpret their stability and relative content within a system Important results include the capability to distinguish the sequence of related sound changes and to make point to point comparisons of different texts using common metrics Other techniques allow quantifiable ambiguity landscapes illustrating the forces that propel different languages in different directions

Security Community Practices in the Western Balkans Sonja Stojanović Gajić, Filip Ejdus, 2018-07-04 In the early 1990s the Western Balkans were the scene of prolonged and bloody inter ethnic wars Numerous issues remain unresolved Bosnia is a dysfunctional state Kosovo a disputed territory Macedonia a fragile republic however it is hard now to imagine the renewal of inter state armed conflict Investigating the causes and mechanisms driving peaceful transformation in the Balkans this book examines developments in the region and contributes to discussions on security community building Focusing on how different professional communities work together in the creation of regional peace and security it sheds new light on how diplomats policemen soldiers and others brought about the transformation from conflict to peace through their everyday practices Conducted collaboratively by a research community based within the region this volume will be highly relevant to scholars and researchers studying the Balkans regional security security communities and policymakers *Cassell's library of English literature, selected, ed. and arranged by H. Morley* Cassell, ltd, 1876 **The True Christian Life** Ambroise Gardeil, Ambroise Gardeil, OP, Matthew Levering, 2022-01-14 Although not well known in the English speaking world Fr Ambroise Gardeil OP 1859 1931 was a Dominican of significant influence in French Catholic thought at the turn of the 20th century Conservative theologians like Frs Reginald Garrigou Lagrange OP Michel Labourdette OP Jean Herv Nicolas OP and many others hailed him as a careful expositor of the supernaturalism of faith a defender of the theological nature of rational apologetics and a spiritual master In his controversial *Le Saulchoir Une cole de th ologie* Fr

Marie Dominique Chenu OP praised Fr Gardeil as an important Dominican initiator of reforms in historical theology presenting the latter as a kind of precursor to one of the streams of what is now referred to historically as the Nouvelle Théologie. And one cannot read the words of Fr Gardeil's contemporary Fr Antoine Lemonnyer OP without hearing echoes and re-echoes of common cause regarding our lofty spiritual vocation resounding within the halls of the Saulchoir. With such a broad appeal it is no surprise that in private correspondence a young Yves Simon writing to Jacques Maritain referred to Fr Gardeil as The Great Gardeil. The True Christian Life provides a thorough and stirring introduction to Fr Gardeil's work in spiritual theology. The volume was originally published posthumously through the collaboration of Fr Gardeil's nephew Fr Henri Dominique Gardeil OP and Jacques Maritain. Fr Ambroise prior to beginning work on his masterpiece on spiritual experience La Structure de l'âme et l'expérience mystique drafted nearly eight hundred pages that would have set forth a full presentation of moral ascetical theology. While drafting this massive work his reflection on the soul's receptive capacity for grace led him to the two volume study La Structure and he never was able to finish his original designs for a comprehensive study of the Christian moral spiritual life. Soon after his death his nephew gathered several essays from the Revue thomiste and Revue de Jeunes along with a complete but unpublished study on prayer. Drafting a lengthy introduction on the basis of Fr Ambroise's unpublished notes Fr Henri Dominique assembled a volume of moral spiritual theology that sets out the principles of many important themes: divinization through grace, Christian prudence, conscience, the virtue of religion, devotion and prayer. In his In Memoriam written after the passing of Fr Gardeil Fr Reginald Garrigou Lagrange emphasized Fr Gardeil's ability to meditate on a given topic's central principles like someone who sees the highest peaks that give structure to the entire mountain range of theology. In this volume the reader will find a clear and rhetorically striking presentation of the central mysteries of the spiritual life presented with stirring and beautiful rhetoric by a theological master from the Thomist tradition.

The Pleasures of Memory in Shakespeare's Sonnets John S. Garrison, 2024-01-13 This imaginative and richly detailed study explores the deep connection between desire and recollection in Shakespeare's poetry. Drawing on cognitive science, the early modern memory arts, and psychoanalysis as well as works by contemporary authors, the book shows how Shakespeare's Sonnets treat memory as a form of poetic narrative.
