

Making a Food Web

- Materials**
- index cards, cut into fourths
 - tape or glue
 - poster board
 - crayons

Procedure

- 1 Write the name of each living thing from the table on its own card.
- 2 Tape or glue the cards in a circle on the poster board.
- 3 Use the table to make two different food chains. **Record** them on paper.
- 4 Use a crayon to draw arrows between the parts of one food chain. Use a different color to draw arrows between the parts of the other food chain.
- 5 **Observe** where the food chains overlap. You have just **made a model** of a food web.

Food Web Table

Living Thing	What It Eats
clover	uses the sun to make its own food
grasshopper	clover
frog	grasshopper
snake	frog, mouse
owl	snake, mouse
mouse	clover

Step 4

Draw Conclusions

1. Why should both your food chains start with clover?
2. **Inquiry Skill** Scientists often use **models**, graphs, and drawings to **communicate** ideas. How does your model help **communicate** what a food web is?

Investigate Further

Choose an animal you like. Find out what it eats and what eats it. Then **make a model** of a food web that includes this animal.

Harcourt Science Grade Three Test Unit
