Human Attention In Digital Environments:

Human Attention in Digital Environments Claudia Roda,2011-02-03 Digital systems such as phones computers and PDAs place continuous demands on our cognitive and perceptual systems They offer information and interaction opportunities well above our processing abilities and often interrupt our activity Appropriate allocation of attention is one of the key factors determining the success of creative activities learning collaboration and many other human pursuits This book presents research related to human attention in digital environments Original contributions by leading researchers cover the conceptual framework of research aimed at modelling and supporting human attentional processes the theoretical and software tools currently available and various application areas The authors explore the idea that attention has a key role to play in the design of future technology and discuss how such technology may continue supporting human activity in environments where multiple devices compete for people s limited cognitive resources Communication in the Era of Attention Scarcity Waddick Doyle,Claudia Roda,2019-09-13 This book examines a series of phenomena that have accompanied the development of digital technology and focuses on the attentional processes that these phenomena have in common Across the social order complaints are growing about a lack of attention as well as an overriding push by corporations and institutions to capture and mobilize attention With a particular focus on social attention the book highlights the need for an increased awareness about the agents that shape attention in our society the effects that these agents attempt to produce and the means by which individuals and groups may increase their control over personal and social attention With a range of academic perspectives this book is a crucial read for understanding the changing shape of political business and personal communication **Routledge Handbook of the Digital Environmental Humanities** Charles Travis,Deborah P. Dixon,Luke Bergmann,Robert Legg,Arlene Crampsie,2022-09-12 The Routledge Handbook of the Digital Environmental Humanities explores the digital methods and tools scholars use to observe interpret and manage nature in several different academic fields Employing historical philosophical linguistic literary and cultural lenses this handbook explores how the digital environmental humanities DEH as an emerging field recognises its convergence with the environmental humanities As such it is empirically critically and ethically engaged in exploring digitally mediated visualised and parsed framings of past present and future environments landscapes and cultures Currently humanities geographical cartographical informatic and computing disciplines are finding a common space in the DEH and are bringing the use of digital applications coding and software into league with literary and cultural studies and the visual film and performing arts In doing so the DEH facilitates transdisciplinary encounters between fields as diverse as human cognition gaming bioinformatics and linguistics social media literature and history music painting philology philosophy and the earth and environmental sciences This handbook will be essential reading for those interested in the use of digital tools in the study of the environment from a wide range of disciplines and for those working in the environmental humanities more generally

Sustainability of Digital Transformation for the Environment Evgeny Kuzmin,Grigoris L. Kyriakopoulos,Victoria Akberdina,Vikas Kumar,2024-02-27 On 2 June 2022 in Stockholm an UN backed coalition of 1 000 stakeholders from over 100 countries launched an Action Plan to steer digitalization towards accelerating environmentally and socially sustainable development The Coalition for Digital Environmental Sustainability aims to help reorient and prioritize the application of digital technologies to meet the 2030 Agenda for Sustainable Development and address the triple planetary crisis of climate change biodiversity loss and pollution and waste Inspired by this Agenda we have directed our research interest toward the search for approaches to sustainable digital transformation for the environment This Research Topic is a part of our initiative at the annual international scientific conference Digital Transformation in Industry DTI held by the Institute of Economics of the Ural Branc   *Postliterary Attention Theory: Reading, Fragmentation, and Meaning in the Digital Age* Shaikh Afnan Birahim,2025-09-22 Postliterary Attention Theory Reading Fragmentation and Meaning in the Digital Age explores how our ability to read deeply has eroded in an era dominated by feeds fragments and dopamine driven design Blending literary history media theory and cognitive science Shaikh Afnan Birahim traces the journey from modernist experimentation to TikTok snippets showing how attention itself has become a cultural battleground This book is both diagnosis and manifesto an invitation to reclaim slow reading as an act of resistance and rediscover the joy intimacy and meaning that only literature can provide   **Digital Manufacturing & Automation III** Yong Hong Tan,2012-07-26 Selected peer reviewed papers from the 3nd International Conference on Digital Manufacturing Automation ICDMA 2012 August 1 2 2012 Guangxi China
