these efforts particularly the government led creation of Islamic councils within a broader theoretical context and glean insights from government interactions with groups such as trade unions and Jewish communities at previous critical junctures in European state building By examining how state mosque relations in Europe are linked to the ongoing struggle for religious and political authority in the Muslim majority world Laurence sheds light on the geopolitical implications of a religious minority s transition from outsiders to citizens This book offers a much needed reassessment that foresees the continuing integration of Muslims into European civil society and politics in the coming decades
