An Introduction to Film Analysis Michael Ryan, Melissa Lenos, 2020-04-16 An Introduction to Film Analysis is designed to introduce students to filmmaking techniques while also providing an invaluable guide to film interpretation It takes readers step by step through the basic technical terms shot by shot analyses of film sequences set design composition editing camera work post production art direction and more each chapter provides clear examples and full colour images from classic as well as contemporary films Ryan and Lenos s updated edition introduces students to the different kinds of lenses and their effects the multiple possibilities of lighting and the way post production modifies images through such processes as saturation and desaturation Students will learn to ask why the camera is placed where it is why an edit occurs where it does or why the set is designed in a certain way The second section of the book focuses on critical analysis introducing students to the various approaches to film from psychology to history with new analysis on postcolonial transnational and Affect Theory New to this edition is a third section featuring several in depth analyses of films to put into practice what comes before *The Birds* *The Shining* *Vagabond* *In the Mood for Love* *Before the Devil Knows You re Dead* **Murder 101** Edward J. Rielly, 2014-08-23 This collection of essays examines how college professors teach the genre of detective fiction and provides insight into how the reader may apply such strategies to his or her own courses Multi disciplinary in scope the essays cover teaching in the areas of literature law history sociology anthropology architecture gender studies cultural studies and literary theory Also included are sample syllabi writing assignments questions for further discussion reading lists and further aids for course instruction *The Art of Watching Films* Joseph M. Boggs, Dennis W. Americans in film before the 1970s is as important for further comprehension as is the rising political consciousness in the 1960s United States of America which found expression in the Civil Rights Movement After I have shown the background knowledge concerning Blaxploitation the description of the image of black people depicted in these movies will follow by analyzing the film Shaft and collecting other significant characteristics of this illustration in the genre in general using the literature on this topic The analysis will be divided into a plot analysis and a film analysis whereby the plot will show characteristics which are visible by a mere reflection of the storyline and setting The film analysis afterwards will have to find said aspects in selected scenes from the movie itself As the most appropriate books for the paper s intention I chose Framing Blackness by Ed Guerrero and Black and White Media by Karen Ross Another interesting work which suits as an informal guide to various Blaxploitation films is the book That s Blaxploitation by Darius James Furthermore the role and portrayal of women in these films is to be observed concerning the books by Ross and Guerrero and the analysis of Shaft On this basis I want to consider in the end whether the genre of Blaxploitation had a more positive or negative impact on the cinematic and real image of African Americans whereas this conclusion will presumably not be a simple statement of good or bad Moreover it is to be seen whether and how it influenced the social life of American black citizens and the future cinematic illustration of African Americanism
