HEADING

## Won't You Be My Neighbor: My Moment as a Leader

TITLE

INTRO

The room was filled with the gentle hum of microphones and video cameras, cut only by the occasional cough or cleared throat. It was easy to feel out of place in this room full of wood furniture, leather seats, and powerful men capable of changing not just my life, but an entire sector of television programming as we knew it. I had never thought of myself as a leader, but I also knew that this was about something bigger than me, something that I could actually influence.

I took a deep breath and began to talk. I wasn't known to have a particularly commanding or powerful voice, but people always seemed to listen, including these men with their name placards and tall seats. They had been ready to cut funding for public broadcasting, which included programming that they had never seen. I was simply someone who lived in a neighborhood and cared about children's education, beyond just math and reading. All I could do was be honest.

BODY

To me, leadership is about connection. I know that I have a voice and an immense dedication to emotional intelligence in children. My ability to focus on other people goes hand-in-hand with my ability to speak through a tiger puppet. Both are about closing gaps and bringing people closer to a basic understanding. I hope to use my leadership abilities within the field of psychology to build more connections between people and communities.

CONCLUSION

- Write a narrative that uses your own voice and style
- Be humble, but don't be down on yourself

quarter of students in the United States are proficient writers indicating a significant need for improvement in writing instruction. One contributing factor to this problem is the lack of school and district leadership in writing instruction. School improvement efforts are often concentrated on reading and math, leaving writing instruction overlooked. Additionally, issues related to writer identities, self-efficacy in writing, and educator training can also impact the effectiveness of instructional leadership in this critical subject. *Instructional Leadership Efforts and Evidence Based Practices to Improve Writing Instruction*, edited by Jennifer VanSlander of Columbus State University, provides within this peer-reviewed book an exploration of evidence-based practices aimed at developing instructional leaders and enhancing student achievement in writing. It covers a broad range of topics related to writing instruction, including learning theories, conceptual models, and the latest empirical research associated with the supervision, organization, implementation, and monitoring of writing programs and instructional approaches. With its emphasis on writer identities, self-efficacy, equitable and inclusive practices, curriculum planning, and implementation, assessment, instructional frameworks, and managing instructional change, this book provides educators with a comprehensive guide to improving writing instruction. It is an essential resource for educators who seek to increase the effectiveness of instructional leadership and writing instruction at the classroom, school, or district level.

**Servant Leadership**, Angelo Letizia, 2018-04-09. *Using Servant Leadership* provides an instructive guide for how faculty members can engage in servant leadership with administrators, students, and community members. By utilizing a wide range of research and through a series of case studies, Angelo J. Letizia demonstrates how, with a bit of creative thinking, the ideals of servant leadership can work even in the fractious, cash-strapped world of contemporary higher education. Furthermore, he considers how these concepts can be implemented in pedagogy, research, strategic planning, accountability, and assessment.
