**9  Quick Layout Buttons -**
The Quick Layout Buttons provide predefined configurations of the Maya Workspace. Hold the Right Mouse button over these buttons to give access to more options.

**10  Help Line -**

**11  Time Slider -**
The Time Slider shows you the time range as defined by the range slider, the current time, and the keys on selected objects or characters. You can also use it to "scrub" through an animation.

**12  Range Slider -**
This bar lets you set up the start and end time of the scene's animation and a playback range if you want to focus on a smaller portion of the time.

**5  Panel Toolbar -**
The panel toolbar rests below the panel menu in each view panel. It lets you readily access many of the frequently used items in the panel menu with a button click. You can toggle view the toolbar by pressing Shift+Ctrl+M.

**6  Channel Box -**

**Workspace -**
The workspace consists of multiple panels that offer different ways of creating and evaluating your scenes.

**13  Command Line -**
This bar has an area to the left for inputting simple MEL commands and an area to the right for feedback. You will use these areas if you choose to become familiar with Maya's MEL scripting language.

**14  Playback -**
The Playback controls let you move around time and preview your animations as defined by the Time Slider range.

**15  Anim/Character -**
The Animation or Character menus allow you to quickly switch the animation layer or current character set.

In all cases, there is a default layer where objects are initially placed upon creation.
