Grade 8 Caps:

Teaching and Learning for Change Ingrid Schudel, Zintle Songqwaru, Sirkka Tshiningayamwe, Heila Lotz-Sisitka, 2021 Like many national curricula around the world South Africa's curriculum is rich in environment and sustainability content Despite this environmental teaching and learning can be challenging for educators This comes at a time when Sustainable Development Goal 4 via Target 4.7 requires governments to integrate Education for Sustainable Development into national education systems Teaching and Learning for Change is an exploration of how teachers and teacher educators engage environment and sustainability content knowledge methods and assessment practices an exposition of quality education processes in support of ecological and social justice and sustainability The chapters evolve from a ten year research programme led out of the DSI NRF SARCHI Chair in Global Change and Social Learning Systems working with national partners in the Fundisa for Change programme and the UNESCO Sustainability Starts with Teachers programme They show the integration of education for sustainable development in teacher professional development and curricula in schools in South Africa They reveal how university based researchers teachers and teacher educators have made theoretically and contextually reasoned choices about their lives and their teaching in response to calls for a more sustainable world in which education must play a role Teaching and Learning for Change will be of interest to education policymakers in government advisors and educators in educational and environmental departments NGOs and other institutions It will also be of interest to teacher educators teachers and researchers in education more generally and environment and sustainability education specifically
