Subversion and the Creative City Oli Mould,2015-03-27 Check out the author s video to find out more about the book <https://vimeo.com/124247409> This book provides a comprehensive critique of the current Creative City paradigm with a capital C
and argues for a creative city with a small c via a theoretical exploration of urban subversion The book argues that the
Creative City with a capital C is a systemic requirement of neoliberal capitalist urban development and part of the wider
policy framework of creativity that includes the creative industries and the creative class and also has inequalities and
injustices in built The book argues that the Creative City does stimulate creativity but through a reaction to it not as part of it
Creative City policies speak of having mechanisms to stimulate individual collective or civic creativity yet through a
theoretical exploration of urban subversion the book argues that to be truly creative is to be radically different from those
creative practices that the Creative City caters for Moreover the book analyses the role that urban subversion and
subcultures have in the contemporary city in challenging the dominant political economic hegemony of urban creativity
Creative activities of people from cities all over the world are discussed and critically analysed to highlight how urban
creativity has become co opted for political and economic goals but through a radical reconceptualisation of what creativity is
that includes urban subversion we can begin to realise a creative city with a small c The Educational Times ,1874
