Human Right Watch Report 2008:

Kurds and Yazidis in the Middle East Günes Murat Tezcür, 2021-01-28 The diversity of Kurdish communities across the Middle East is now recognized as central to understanding both the challenges and opportunities for their representation and politics Yet little scholarship has focused on the complexities within these different groups and the range of their experiences This book diversifies the literature on Kurdish Studies by offering close analyses of subjects which have not been adequately researched and in particular by highlighting the Kurds relationship to the Yazidis Case studies include the political ideas of Ehmede Xani the father of Kurdish nationalism Kurdish refugees in camps in Iraq the perception of the Kurds by Armenians in the late Ottoman Empire and the Turks in modern Western Turkey and the important connections and shared heritage of the Kurds and the Yazidis especially in the aftermath of the 2014 ISIS attacks The book comprises the leading voices in Kurdish Studies and combines in depth empirical work with theoretical and conceptual discussions to take the debates in the field in new directions The study is divided into three thematic sections to capture new insights into the heterogeneous aspects of Kurdish history and identity In doing so contributors explain why we need to pay close attention to the shifting identities and the diversity of the Kurds and what implications this has for Middle East Studies and Minority Studies more generally

Preventing Radicalisation and Terrorism in Europe Maria Luisa Maniscalco, Valeria Rosato, 2019-09-19 Within the general framework of the European TRIVALENT project the comparative analysis presented here focuses alongside policy measures taken at EU level on counter terrorism and counter radicalisation policies implemented by five European countries namely Belgium France Italy Spain and the United Kingdom These case studies with their peculiarities and differences offer insights into the role of long term and structural factors in defining counter terrorism and counter radicalisation policies and highlight the influence that specific occurrences can have The volume analyses different types of public policies including repressive preventive legal and administrative measures together with the role of civil society in preventing and mitigating radicalisation processes The book offers an updated and critical assessment of the main anti terrorism and anti radicalisation policies of the five aforementioned countries and their strengths and weaknesses identifying possible evolutionary lines and proposing a series of recommendations *China 2020* Michael A.

Santoro, 2015-01-26 Chinese society is plagued by many problems that have a direct impact on its current and future business and political environment worker rights product safety Internet freedom and the rule of law Drawing on knowledge gained through personal interviews documentary sources and almost two decades of visits to China Michael A Santoro offers a clear eyed view of the various internal forces such as regionalism corruption and growing inequality that will determine the direction and pace of economic social and political change Of special interest is Santoro s assessment of the role of multinational corporations in fostering or undermining social and political progress Santoro offers a fresh and innovative way of thinking about two questions that have preoccupied Western observers for decades What will be the effect of economic

reform and prosperity on political reform How can companies operate with moral integrity and ethics in China In China 2020 Santoro unifies these hitherto separate questions and demonstrates that moral integrity or lack of it by Western business will have a profound impact on whether economic privatization and growth usher in greater democracy and respect for human rights Offering a novel vision of China s future economic and political development Santoro rejects the conventional view that China will muddle through the next decade with incremental social and political changes Instead he argues that China will follow one or two widely divergent potential outcomes It might continue to progress steadily toward greater prosperity democracy and respect for human rights but it is also highly likely that China will instead fall backward economically and into an ever more authoritarian regime The next decade will be one of the most important in the history of China and owing to China s global impact the history of the modern world China 2020 describes various tectonic social and political battles going on within China The outcomes of these struggles will depend on a number of powerful indigenous forces as well as the decisions and actions of individual Chinese citizens Santoro strongly believes that Western businesses can and should influence these developments
