Hantaviruses J. S. Mackenzie, 1999-06 *Jews, Gentiles, and Other Animals* Mira Beth Wasserman, 2017-04-21 In *Jews Gentiles and Other Animals* Mira Beth Wasserman undertakes a close reading of Avoda Zara arguably the Talmud's most scandalous tractate to uncover the hidden architecture of this classic work of Jewish religious thought She proposes a new

way of reading the Talmud that brings it into conversation with the humanities including animal studies the new materialisms and other areas of critical theory that have been reshaping the understanding of what it is to be a human being Even as it comments on the the rabbinic laws that govern relations between Jews and non Jews Avoda Zara is also an attempt to reflect on what all people share in common and on how humans fit into a larger universe of animals and things As is typical of the Talmud in general it proceeds by incorporating a vast and confusing array of apparently digressive materials but Wasserman demonstrates that there is a whole greater than the sum of the parts a sustained effort to explore human identity and difference In centuries past Avoda Zara has been a flashpoint in Jewish Christian relations It was partly due to its content that the Talmud was subject to burning and censorship by Christian authorities Wasserman develops a twenty first century reading of the tractate that aims to reposition it as part of a broader quest to understand what connects human beings to each other and to the world around them *Shangri-La 730's Last Flight* Skot Keller,2020-11-25 Shangri La730 s Last Flight By Skot Keller Shangri La730 s Last Flight iz inspired by Malaysia Flight 370 which went missing on March 8th 2014 it has never been found and remains a mystery az to what happened to it The people on the Malaysia plane are assumed to be dead and the people on Shangri La 730 do not come away mortally alive either Rest assured that there iz a happy ending for everyone When an Australian engineer has an idea that he sends out in a mass email about a theory that will lead to a scientific breakthrough it makes an alien race called the sigla nervous and they try to squash the idea by commandeering Shangri La flight 730 in flight There are humans extraterrestrials az well az angels all involved with what happens aboard the plane This iz importantly a Christian piece of fiction not factual or scripturally based Some questions that are explored are If there are intelligent extraterrestrials do they have a relation with GOD like humans have a relation with GOD and how are their spiritual beliefs related to mankind s Their GOD and the Christian GOD must be the same because the Creator created everything Other questions are considered e g What iz the purpose of life What iz eternal life without perfection and what iz perfection What happens to good people who have not accepted Jesus Yeshua as their Savior Lord and Master Do animals have souls Hopefully those who read Shangri La 730 s Last Flight will come away with an uplifting feeling that there iz a perfect plan working its way out in its perfection and a hopeful belief that they can be reunited with all they love in GOD

Carson, 2000 For as long as humans have pondered philosophical issues they have contemplated the good life Yet most suggestions about how to live a good life rest on assumptions about what the good life actually is Thomas Carson here confronts that question from a fresh perspective Surveying the history of philosophy he addresses first order questions about what is good and bad as well as metaethical questions concerning value judgments Carson considers a number of established viewpoints concerning the good life He offers a new critique of Mill's and Sidgwick's classic arguments for the hedonistic theory of value employing thought experiments that invite us to clarify our preferences by choosing between different kinds of lives He also assesses the desire or preference satisfaction theory of value in detail and takes a fresh look at both Nietzsche's *bermensch* ideal and Aristotle's theory of the good life In exploring foundational questions Carson observes that many established theories rest on undefended assumptions about the truth of moral realism Arguing against this stand he defends the view that good means desirable and presents a divine preference version of the desire satisfaction theory In this he contends that if there exists a kind and omniscient God who created the universe then what is good or bad is determined by His preferences if such a God

does not exist what is good or bad depends on what we as rational humans desire Value and the Good Life is the only book that defends a divine preference theory of value as opposed to a divine command theory of right and wrong It offers a masterfully constructed argument to an age old question and will stimulate all who seek to know what the good life truly is
