**Teaching English Language and Literature 16-19** Furzeen Ahmed, Marcello Giovanelli, Megan Mansworth, Felicity Titjen, 2020-10-28 This book offers both a scholarly and practical overview of an integrated language and literature approach in the 16-19 English classroom. Providing a comprehensive overview of the identity of the subject, it outlines the pedagogical benefits of studying a unified English at post-16 and provides case studies of innovative classroom practice across a range of topics and text types. Including contributions from practising teachers and higher education practitioners with extensive experience of the post-16 classroom and drawing on a range of literature, this book covers the teaching of topics such as Mind style in contemporary fiction, Comparative poetry analysis, Insights from linguistic cohesion, Criticality through creative response. Written to complement the two other Teaching English 16-19 titles in the NATE series, Teaching English Language and Literature 16-19 is the ideal companion for all practising A-level English teachers of all levels of experience.

**Organizing Information in School Libraries** Cynthia Houston, 2015-12-07 Covering both classification and cataloging principles as well as procedures relevant to school libraries, this book provides a teaching kit for a course on this critical subject that includes content and practice exercises. A valuable resource for instructors in LIS programs who teach courses in cataloging with an emphasis on school libraries, this textbook explains the nuts and bolts of classification and cataloging as well as the functionality of integrated library systems and how these systems critically serve the mission of the school. Author Cynthia Houston covers Web 2.0 and the social networking features of these systems as well as examining in detail the principles and procedures for subject classification using Sears subject headings or Dewey Decimal Classification using the Sears tool. This teaching tool kit addresses the cataloging of print materials, audiovisual materials, and electronic materials separately but all within the specific context of the school library. It supplies a number of examples and exercises to reinforce the key concepts and skills as well as to demonstrate the real-world applications of learning concepts and procedures. Based directly on Houston's extensive experience in teaching classification and cataloging courses, the included content and practice exercises enable instructors to use this book for content for instruction and for providing student feedback. **The Routledge Companion to Literary Urban Studies** Lieven Ameel, 2022-08-10 Over the past decades, the growing interest in the study of literature of the city has led to the development of literary urban studies as a discipline in its own right. The Routledge Companion to Literary Urban Studies provides a methodical overview of the fundamentals of this developing discipline and a detailed outline of new directions in the field. It consists of 33 newly commissioned chapters that provide an outline of contemporary literary urban studies. The Companion covers all of the main theoretical approaches as well as key literary genres with case studies covering a range of different geographical, cultural, and historical settings. The final chapters provide a window into new debates in the field. The three focal issues are key concepts and genres of literary urban studies, a reassessment and critique of classical urban studies theories, and the canon of literary capitals and methods for the analysis.

of cities in literature The Routledge Companion to Literary Urban Studies provides the reader with practical insights into the methods and approaches that can be applied to the city in literature and serves as an important reference work for upper level students and researchers working on city literature Chapter 15 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

*Make / Believe* John Hartley, 2025-01-23 This book illustrates that mediated popular culture and science based knowledge systems entangled and compromised as both have become are still a robust crucible for system change for the future when they combine forces Planetary crises require responses from everyone This means that collective action is not simply a scientific or political problem It is a problem of culture and media But modern politics journalism and science were not designed for global climate action They've divided humans into competitive and often hostile we and they groups Identity news and knowledge are all weaponized Culture makes groups groups make knowledge and knowledge makes enemies What can be done to prevent global conflict and the drift to war *Make Believe* turns to popular culture and social media to argue for an alternative storyline While the Great Powers are making new enemies emergent classes led by children are using planetary connectivity to make new worlds A digital planet generates new kinds of strategic stories for pan human action based on difference intersectionality and cooperation for a sustainable Earth system *Make Believe* shows how alternatives to the Great Game of global contestation are gathering strength in unlikely places among women children lifestyle and pop culture Popular digital media literacy is now a prerequisite for the remediation of the planet
