Guided Discovery Model

Is about *TIU*

The guided discovery model is an approach to instruction in which the teacher presents students with examples of a specific topic and guides students to an understanding of that topic.

Main idea

PLANNING

- Pick a topic
- Create clear learning objectives (what you want the students to know)
- Know the learning objectives
- create or find examples and/or non-examples about the topic:
 - You need to have high-quality examples (all examples that the students need to understand the learning objective), a variety of examples (multiple), and context for examples (shows students how to apply the topic to the real world)
 - Types of examples-concrete materials "real thing", pictures, and models (visual representations)

Main idea

IMPLEMENTING

- Phase 1: Introduction
 - Grab the students' attention and provide a conceptual framework for the lesson
- Phase 2: Open-Ended Phase
 - You need to promote student involvement
 - You can give examples, ask students to identify patterns, and then allow time to go into groups and discuss or you can have a lesson in whole-group and follow up with questions
- Phase 3: Convergent Phase
 - Guide the students' responses so that they target a specific learning objective
- Phase 4: Closure and Application
 - Students are able to state characteristics about the concept

Main idea

ASSESSMENT

- Regular paper-and-pencil test
- Student portfolios/journals
- informal assessment during discussion
- Critical thinking/short answer questions

Main idea

MOTIVATION

- Students are motivated by their peers if working in groups
- Students are also self-motivated if they know that they will have a formal assessment after the lesson
- Students can also be motivated by the teacher

So what? What is important to understand about this?

The Guided Discovery Model is a great way for students to interact during the lesson whether it is whole-group or small-group discussion. This model is great because it can be use across different age groups with only slight modifications.

Guided Discovery Lesson Plan Examples First Conditional

Didier Musso

Guided Discovery Lesson Plan Examples First Conditional:

The Foundations of Teaching English as a Foreign Language Paul Lennon, 2020-07-12 An introductory textbook that assumes no prior knowledge of linguistics or second language acquisition this book presents a comprehensive overview of the theoretical foundations methods and practices of Teaching English as a Foreign Language TEFL for pre service teachers Lennon covers the theoretical bases for TEFL and addresses second language acquisition research past and present EFL teaching methodology as well as psychological and social approaches to individual language learner variation Further chapters provide extensive yet accessible coverage on essential foundational topics including chapters on pronunciation grammar vocabulary literature and testing Offering a sociocultural approach in which the teacher is seen as a facilitator and supporter of students self directed learning this text provides the prospective teacher with the knowledge and skills to be an effective educator in the EFL classroom The targeted EFL focus makes this book ideal for pre service teachers and for teacher training programmes around the world Each chapter includes a Food for Thought section with questions for reflection and a Further Reading list
