Austin,2004 This text examines second language pedagogy from two critical fields of literature psycholinguistics and socio cultural offering a fresh perspective on interactive content based language teaching and learning Unique in its kind this highly practical text offers more methodological approaches to teaching in ESL settings than any other book on the market making it a perfect match for undergraduate pre service teachers who are learning how to teach ESL students in their classrooms Novice teachers will have the opportunity to interact with the text reflect and consult with colleagues partners and classmates by being able to write in the text revisit those responses and view video clips on the Companion Website [Creating a resource of guided reading lesson plans](#) Emily F. Green,2006 All elementary schools in the Green Bay Area Public School District are now using the guided reading approach for reading instruction Simply stated guided reading involves teaching students at their instructional level This means that in one classroom alone a teacher may have five different reading groups in which

students are all reading different books and focusing on different skills Planning for numerous reading groups can take up the majority if not all of teacher s planning time Due to the fact that planning for guided reading instruction takes so much time teachers don t have time to meet their remaining job requirements within the allotted amount of time and are unable to collaborate effectively with their grade level peers This advocacy project focuses on producing a resource of lesson plans that correspond to the books in Martin Elementary School s book room to minimize the amount of time teachers spend planning guided reading lessons in order to enable them to have more time to complete other job requirements during the work day This project incorporates time for teachers to collaborate in order to produce quality lessons
