June 2socr Mark Scheme Paper:

Defining Literary Criticism Carol Atherton, 2005-09-27 Outlining the controversies that have surrounded the academic discipline of English Literature since its institutionalization in the late nineteenth century this important book draws on a range of archival sources It addresses issues that are central to the identity of academic English how the subject came into existence and what makes it a specialist discipline of knowledge in a manner that illuminates many of the crises that have affected the development of modern English studies Atherton also addresses contemporary arguments about the teaching of literary criticism including an examination of the reforms to A Level literature Key Maths GCSE. David Baker, 2002 Developed for the OCR Specification revised for the new National Curriculum and the new GCSE specifications The Teacher File contains detailed support and guidance on advanced planning points of emphasis key words notes for the non specialist useful supplementary ideas and homework sheets **The Use of English** ,2002 **Talking Politics** ,2002 GCSE Applied Science Double Award Ken Gadd, 2003-08 Board specific Teacher Support Packs provide advice and assistance on how to approach this new qualification This Pack is appropriate for OCR and includes information on how to prepare students for external assessment and how to assist them in preparing their portfolios *Improving Literacy at KS2 and KS3* Andrew Goodwyn, 2002-06-28 *Improving Literacy at KS2 and KS3* is all about primary secondary transfer seen mostly through the eyes of secondary teachers but with some interesting contributions from middle school staff who know the territory well This book sees the NLS s influence on primary practice as generally benign but takes a more jaundiced view of the implications for secondary teaching especially in its central chapter Evidence from experienced practitioners There are however many useful suggestions for reshaping and adapting parts of the strategy including chapters on classroom literacy and everyday life and literacy and drama which consider ways of relating learning to the wider culture beyond school including screen based literacy There is also a review of the language across the curriculum movement and a chapter on subject literacies which has left me with an abiding admiration for geography teachers as lone voices of dissent Sue Palmer TES Teacher This book will to help students and practising teachers to understand the issues surrounding literacy the place of transition in pupils lives and to feel confident in handling The National Literacy Strategy The book focuses on the crucial period when children complete primary schooling and begin in secondary schools It examines the issue of transition from one phase to the other and specifically the nature of literacy at this period The authors contrast the whole school approach of primaries to the very subject specific nature of secondary teaching The authors set the NLS in perspective reviewing earlier movements such as Language across the Curriculum and the NLS itself They offer a critique of the strategy and outline its strengths and weaknesses The book sets out evidence of the way schools are reacting to the NLS and what classroom teachers and their pupils think Its coverage is comprehensive and includes focus on primary secondary and middle schools the teaching of literacy and English the role of ICT as well as important areas such as media education drama and modern foreign languages

This book will be useful to education students and to practicing teachers in primary and secondary schools
