## NICKEL PLATED—GROUND GLASSES—ECLIPSE COVERS

These Levels are exceptionally fine tools. The bottoms are milled true on both the smooth and grooved patterns. They are fitted with ground glasses which are extra long and of large diameter. This makes them extremely sensitive, consequently particularly adapted for machinists' use. The glass is fitted in a metal case. An outer shell, termed by us "Eclipse Cover" is fitted over the case, which can be turned so as to completely protect the Glass. The case is screwed to a substantial metal base. The levels may be adjusted by these screws. For leveling up shafting, piping, etc., they are made with grooved bottoms.
