## Enhance the performance and reliability of your critical transportation assets with IBM Maximo for Transportation.

### Highlights

- Optimize asset performance as you help improve availability and lower the cost of acquisition, maintenance and disposal
- Improve efforts to comply with transportation industry regulations
- Consolidate multiple asset management systems for improved oversight of all transportation-related assets
- Leverage built-in industry best practices to improve asset productivity

Managing transportation assets has become increasingly complex due to advances in technology, changes in security, heightened competition and rising costs. Maximizing the availability and performance of assets is more critical to success than ever before.

Today, fleet managers and maintenance officers must make immediate and strategic decisions, requiring effective data analysis capabilities and reporting. They also need to get asset management information into the hands of maintenance technicians and storeroom personnel rapidly.

IBM Maximo<sup>®</sup> asset and service management solutions provide transportation organizations with best practices to help improve the productivity of their critical assets. IBM Maximo

for Transportation enables organizations to use advanced product capabilities to better support people, process and technology. This industry-specific solution helps manage critical aspects of each asset's life cycle, while providing key capabilities such as acquisition, automated alerts, campaigns, contract management, life-cycle accounting, labor certification, service level agreements, warranty and disposal.

Maximo for Transportation helps you address the stringent requirements of regulatory bodies, while also adhering to industry-standard coding structures for industries such as trucking, rail and aviation. Best practices are built into the solution to help you extend asset life, optimize spare parts management, reduce road calls and incidents, and increase planned maintenance. On
