## Chapter 1.1-1.2

**Question:** Which of the four main divisions of philosophy interests you the most? What philosophical questions listed in this section (p. 6) would you most want to have answers to and why?

There are four main divisions of philosophy. Two of them, Axiology and Logic are something that most people use day to day. I use them all the time. But the one that catches my eye, the one that interreges me is Metaphysics. According to the book Philosophy Here and Now by Lewis Vaughn (page 4 Chapter 1) "Metaphysics is the study of reality in the broadest sense, an inquiry into the elemental nature of the universe and the things in it..."

All the questions that come with Metaphysics are something I always think of. Such as what is beyond life? I always find myself also thinking about God and how really bad things happen and why he would let that happen. I also believe in the world of spirits. Do people stay on earth after passing? All these questions make my head spin. These are most likely the questions I would like to know the answer to, but I know with all the answers comes more questions.
