Documents of the Senate of the State of New York New York (State). Legislature. Senate,1913 **The Commercial & Financial Chronicle ...** ,1907 Mobile Broadband Communications for Public Safety Ramon Ferrús,Oriol Sallent,2015-08-07 This book provides a timely and comprehensive overview of the introduction of LTE technology for PPDR communications It describes the operational scenarios and emerging multimedia and data centric applications in demand and discusses the main techno economic drivers that are believed to be pivotal for an efficient and cost effective delivery of mobile broadband PPDR communications The capabilities and features of the LTE standard for improved support of mission critical communications e g proximity services group communications are covered in detail Also different network implementation options to deliver mobile broadband PPDR communications services over dedicated or commercial LTE based networks are discussed including the applicability of the Mobile Virtual Network Operator MVNO model and other hybrid models Radio spectrum matters are also discussed in depth outlining spectrum needs and providing an outlook into allocated and candidate spectrum bands for PPDR communications and suitable dynamic spectrum sharing solutions in PPDR communications Explanations are accompanied by a vast collection of references that allow the more intrigued reader to gain further insight into the addressed topics **Sessional Papers** ,1906 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement *Credit, Consumers and the Law* Karen Fairweather,Paul O'Shea,Ross Grantham,2016-10-14 Consumer law particularly consumer credit law is characterised by increasingly complex regulation in Western economies Reacting to the Global Financial Crisis governments in the UK the EU Australia New Zealand and the United States have adopted new laws dealing with consumer credit responsible lending consumer guarantees and unfair contracts Drawing together authors from all of these jurisdictions this book analyses and evaluates these initiatives and makes predictions as to their likely success and possible flaws *PHilMech* ,2010 The Commercial and Financial Chronicle ,1907 **Paper** American Society of Mechanical Engineers,1921 **Cellular and Phenotypic Plasticity in Cancer** Petranel Theresa Ferrao,Andreas Behren,Robin Anderson, Erik Thompson,2015-09-17 The process of Epithelial Mesenchymal Transition EMT is known to result in a phenotype change in cells from a proliferative state to a more invasive state EMT has been reported to drive the metastatic spread of various cancers and has also been associated with drug resistance to cytotoxics and targeted therapeutics Recently phenotype switching akin to EMT has been reported in non epithelial cancers such as metastatic melanoma This process involves changes in EMT Transcription Factors EMT TFs suggesting that phenotype switching may be common to several tumour types It remains unclear as to whether the presence of both Epithelial like and Mesenchymal like cells are a pre requisite for phenotype switching within a tumour how this heterogeneity is regulated and if alteration of cell phenotype is sufficient to mediate migratory changes or whether drivers of cell migration result in an associated phenotype switch in cancer cells Similarly it has yet to be clarified if cells in

an altered phenotype can be refractory to drug therapy or whether mediators of drug resistance induce a concurrent phenotypic change Little is known today about the underlying genetic epigenetic and transient changes that accompany this phenotypic switch and about the role for the tumor micro environment in influencing it Hence this is currently an area of speculation and keen interest in the Oncology field with wide ranging translational implications In this Frontiers Research Topic we discuss our current understanding of these concepts in various cancer types including breast cancer colorectal cancer and metastatic melanoma This topic covers how these processes of cellular and phenotypic plasticity are regulated and how they relate to cancer initiation progression dormancy metastases and response to cytotoxics or targeted therapies

Adaptive Hot Cognition: How Emotion Drives Information Processing and Cognition Steers Affective Processing Mariska E. Kret, Bruno R. Bocanegra, 2017-05-02 Influential theories have argued that affective processing is fundamentally different from cognitive processing Others have suggested that theoretical boundaries between affective and cognitive processing are artificial and inherently problematic Over recent years different positions on these issues have fueled many empirical studies investigating the mechanisms underlying cognitive and affective processing Where and on what basis should we draw the line between cognition and emotion Are there fundamental distinctions to be made between the way emotion influences cognition and cognition influences emotion How does the reciprocal interaction between emotion and cognition lead to adaptive behavior This Research Topic explores the nature of the reciprocal interaction between emotion and cognition from a functional perspective
