International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government s fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

Handbook of Research on Teacher Practices for Diverse Writing Instruction Hodges, Tracey S., 2022-05-20 The art and practice of writing is complex and multidimensional students often apply unique writing styles As such educators must apply focused teaching methods to nurture these unique forms of writing Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom However resources related to writing typically do not focus on the depth and breadth of writing and there is a need for a resource that offers a comprehensive look at diverse writing instruction research The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues perspectives and methods for writing instruction currently in use with an added lens focusing on diversity and equity It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting Covering topics such as student motivation curriculum development and content area instruction this major reference work is an essential resource for preservice teachers faculty and administration of K 12 and higher education academic libraries government officials school boards researchers and academicians

Argumentative Writing in a Second Language Alan R. Hirvela, Diane Belcher, 2021-12-13 Argumentative Writing in a Second Language is a collection on teaching argumentative

writing offering multiple vantage points drawn from the contributors own teaching and research experiences The value of learning how to compose argumentative texts cannot be overstated and yet very little attention has been allocated to the equally important topic of how argumentation is or can be taught in the L2 context Thus this volume shifts attention to teachers and argumentative writing instruction especially within increasingly common multimodal and digital literacy settings While doing so it provides a comprehensive wide ranging view of the L2 argumentative writing landscape within an instructional lens Part I of the volume is topic oriented and focuses on explorations of important issues and perspectives while Part II features several chapters reporting classroom based studies of a variety of instructional approaches that expand our understanding of how argumentative writing can be taught The book will be of value to pre service and in service teachers in varying instructional contexts as well as teacher educators and L2 writing scholars researchers

Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria Anders Jönsson, Frans Prins, 2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions

Second International Research Handbook on Values Education and Student Wellbeing Terence Lovat, Ron Toomey, Neville Clement, Kerry Dally, 2023-11-14 This collection applies the principles underlying values education to addressing the many social and learning challenges that impinge on education today Insights in the fields of social and emotional learning student wellbeing and increasingly educational neuroscience have demonstrated that values education represents an efficacious pedagogy with holistic effects on students across a range of measures including social emotional and intellectual outcomes With schools in the 21st century confronting

issues such as gender identity stemming radicalism mental health equity for disadvantaged groups bullying respect and the meaning of consent values education offers a way of teaching and learning that integrates and enhances student s affective and cognitive functioning The earlier edition of this book has become a standard reference for scholars and practitioners in the fields of values education moral education and character education Its citation rates reads and downloads have been consistently and enduringly high as have those of its companion text Values Pedagogy and Student Achievement A decade on the main purpose of the revised edition is to update and incorporate new research and practice relevant to values education Recent insights in the fields of neuroscience and social and emotional learning and their implications for education and student wellbeing are more overt than they were when the first edition was being compiled Additionally advanced thinking in the field of epistemology how humans come to know and therefore learn has also sharpened especially through the later writings of prominent scholars like Jurgen Habermas The revised edition has preserved the essential spirit and thrust of the original edition while making space for some of these new insights about the potential of values education to establish optimal and harmonious learning and social environments for both students and teachers

School Reform in an Era of Standardization Ian Hardy,2020-12-29 School Reform in an Era of Standardization explores how teachers and school based administrators navigate the processes of accountability and standardization in schooling systems and settings It provides clear insights into how the work and learning of teachers and students in schools have been dramatically reconstituted by increased pressures of external political scrutiny and accountability The book reveals in detail the nature and effects of standardization processes upon schools and schooling systems Specifically it shows how curriculum development teaching and assessment practices have all been recalibrated under conditions of increased external scrutiny of teacher and student work and learning and how such processes are manifest in curriculum dominated by attention to literacy and numeracy more scripted pedagogies and standardized testing However the research not only elaborates the detrimental effects of such processes but also how those responsible for educating in schools teachers heads of curriculum deputy principals and principals have responded proactively by interpreting interrogating and challenging these conditions In this way it provides resources for hope evidence of what are described as more authentic accountabilities and at the same time it provides a clear portrait of the difficulty of fostering substantive curriculum teaching and assessment reform during an era of increasingly reductive accountability processes It will be an invaluable resource for understanding and enhancing practices in schools and school systems in the decades to come and for giving hope to educators in the ongoing work of rebuilding trust in public education

Revolutionizing K-12 Blended Learning through the i²Flex Classroom Model Avgerinou, Maria D.,Gialamas, Stefanos P.,2016-06-20 Blended learning has gained significant attention recently by educational leaders practitioners and researchers i Flex a variation of blended learning is based on the premise that certain non interactive teaching activities such as lecturing can take place by students without teachers direct involvement Classroom time can then be used for educational
