,1989 **The Enduring Legacies of the Global Financial Crisis in East Asia** Iain Pirie,2024-07-25 The Enduring Legacies of the Global Financial Crisis in East Asia challenges the assumption that the global financial crisis had a limited structural impact on East Asian political economies arguing that the crisis has led to a significant if uneven reorganization of major national political economies within the region where in response to the crisis states have promoted domestic processes of financialization as a means of stimulating their economies The major East Asian economies bar Japan enjoyed strong recoveries from the 2008 2009 financial crisis However this success has been achieved by promoting domestic processes of financialization to maintain demand more precisely the rapid build up of household debt Malaysia Korea Taiwan China and asset price bubbles China Japan In short East Asia has employed precisely those practices that the global financial crisis itself illustrated the unsustainability of to maintain growth Using a post Keynesian framework the book argues that the dependency on these forms of financialization to support demand is a direct product of a failure to address the issue of inequality High levels of inequality slow the growth of non debt based domestic consumption An alternative approach to supporting demand in the post crisis period would need to focus on progressive redistribution through strengthening of labour rights and systems of social support which would directly challenge the interests of economic and political elites The structural vulnerabilities that accelerated financialization is creating in East Asia demonstrate the necessity of a post Keynesian growth strategy based on redistribution and curbing financialization The book also argues that in certain Northeast Asian economies the crisis has led to a consolidation of systems of industrial activism state control which could have occurred without accelerated financialization and vice versa This book will be of great interest to students and scholars of political economy and Asian studies *Electronics World* ,1996 **Electronic Engineering** ,1986 **Implications of Psycho-computational Modelling for Morphological Theory** Vito Pirrelli,Harald Baayen,Walter Daelemans,Robert Malouf,2022-07-12 **Genetics and epigenetics: Plausible role in development of climate resilient crops** Vijay Gahlaut,Abhishek Bohra,Dragan Perovic,Rajeev K.
