*Classroom Research on Chinese as a Second Language* Fangyuan Yuan, Shuai Li, 2019-04-24 This collection brings together a series of empirical studies on topics surrounding classrooms of Chinese as a second language L2 by drawing on a range of theoretical frameworks methodological strategies and pedagogical perspectives Over the past two decades research on classroom based second language acquisition SLA has emerged and expanded as one of the most important sub domains in the general field of SLA In Chinese SLA however scarce attention has been devoted to this line of research With chapters written by scholars in the field of SLA many of whom are experienced in classroom teaching teacher education or program administration in Chinese as a second language this book helps disentangle the complicated relationships among linguistic targets pedagogical conditions assessment tools learner individual differences and teacher variables that exist in the so called black box classrooms of L2 Chinese

□□□□□□ Tao-chung Yao, 2005 [Integrating Chinese Linguistic Research and Language Teaching and Learning](#) Hongyin Tao, 2016-10-03 Linguistic research and language teaching have generally been viewed as two separate types of academic endeavor While linguists have been preoccupied with pattern finding and theory building language teachers often encounter issues that are not readily addressed by theoretical linguistic research This collection with eleven papers touching upon a wide range of issues stands out as one of the rare concerted efforts toward a meaningful integration of the two endeavors Subject matters include tone stress word structure grammatical categories e.g. classifiers syntactic structures including argument structure discourse particles implicit and explicit knowledge conversational repair and learner corpus With a diverse range of theoretical orientations this collection serves to showcase some of the productive ways to create synergy between Chinese linguistic research and language education

*Teaching and Learning Chinese as a Second or Foreign Language* Ko-Yin Sung, 2019-10-23 *Teaching and Learning Chinese as a Second or Foreign Language* edited by Ko Yin Sung addresses three emerging themes in the field of Chinese language teaching and learning

- 1 Increasingly ubiquitous in all language learning and teaching and for the learning of Chinese as a second language in particular information and communication technology ICT can serve as an important and effective tool Several chapters focus on how certain emerging ICT tools are applied in teaching and learning Chinese as a second language
- 2 Due to China's economic and political influence the number of students of all ages studying Chinese as a second language but especially young learners has increased in many parts of the world Despite this the research into teaching Chinese to young learners has lagged behind Several chapters investigate young learners motivations and effective methods for assisting them to master the Chinese language
- 3 The writing system of the Chinese language poses many challenges for learners especially those more familiar with alphabetical languages In light of this difficulty in learning Chinese characters some of the chapters identify effective teaching and learning strategies to master the Chinese language

[Advances in Chinese as a Second Language](#) Nan Jiang, 2014-03-17 This book is a collection of 13 empirical studies examining the acquisition and processing of

Chinese as a second language On the acquisition front these studies explore the acquisition of structures such as the perfective marker le wh questions bei constructions and bare nouns and examine the factors that may affect acquisition such as learners background anxiety and instruction Processing studies cover topics such as the identification of Chinese tones the recognition of characters the processing of compounds and relative clauses and the expression of motion events Many of these studies represent pioneering and cutting edge research on their respective topics and all will be of interest to students and scholars who are interested in the study of acquisition and processing of Chinese as a second language
