Language And Identity Discourse In The World:

Language and Identity David Evans, 2014-12-18 Language not only expresses identities but also constructs them Starting from that point Language and Identity examines the interrelationships between language and identities It finds that they are so closely interwoven that words themselves are inscribed with ideological meanings Words and language constitute meanings within discourses and discourses vary in power The powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures Language and culture death occur in extreme cases of marginalization This book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries Language can be a double edged sword of opportunity and marginalization Language and Identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization With sound theoretical perspectives drawing upon the work of Bakhtin Vygotsky Gumperz Foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity

Language and Identity Dr David Evans, 2015 Language not only expresses identities but also constructs them Starting from that point Language and Identity examines the interrelationships between language and identities It finds that they are so closely interwoven that words themselves are inscribed with ideological meanings Words and language constitute meanings within discourses and discourses vary in power The powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures Language and culture death occur in extreme cases of marginalization This book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries Language can be a double edged sword of opportunity and marginalization Language and Identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization With sound theoretical perspectives drawing upon the work of Bakhtin Vygotsky Gumperz Foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity Provided by publisher

Rationality and Interpretation David Evans, 2022-09-08 Taking a unique approach which combines sociolinguistics with theoretical linguistics this book presents a view of language and grammar as both a cognitive and socio cultural phenomena Beginning with Bakhtin s theories of conceptual grammar and lexico grammar this book encompasses a broad philosophical range engaging with the ideas of key figures such as Bergson Chomsky Derrida and Wittgenstein Drawing on their work it investigates how language progresses from an inner reflection of the rational mind to

develop social and ideological aspects as it interacts with culture In doing so it shows how identity is unitary and rational at the linguistic core whilst multiple social identities are simultaneously shaped by linguistic differences at the cultural peripheries Encompassing theoretical linguistics cognitive linguistics discourse analysis multilingualism sociolinguistics and semiotics Rationality and Interpretation demonstrates how the different branches of linguistics can complement each other and highlights the socio cultural influences of language development as well as how language development is shaped by those influences

Seeking Identity Nancy Mae Antrim, 2007

Seeking Identity: Language in Society looks at how we define and create identity both as individuals and as a society through language. Our language choices reflect not only how we view ourselves but how we are viewed by society. An individual's identity is reflected in various language construed identities: ethnicity, gender, and cross-cultural/counter-cultural. In turn, these identities are projected by society on the individual ethnic group by the language choices society makes in describing and addressing these individuals.

In the first section, *Language and Identity*, an ethnolinguistic approach is used to address the areas of language, identity, loyalty, gender, and ethnic pride.

Section two, *Language and Advertising*, looks at how society in turn uses language to relate to different groups by appealing to ethnic pride, language, identity, and the power/prestige that using a particular language variety entails.

Section three, *Language and the Media*, explores how the media contributes to our construction of identity.

Section four, *Language and Discourse*, shows how written discourse can appropriately construct and parody identity.
