Smart Solutions to Climate Change Bjørn Lomborg,2010-09-09 The failure of the Copenhagen climate conference in December 2009 revealed major flaws in the way the world s policymakers have attempted to prevent dangerous levels of increases in global temperatures The expert authors in this specially commissioned collection focus on the likely costs and benefits of a very wide range of policy options including geo engineering mitigation of CO2 methane and black carbon expanding forest research and development of low carbon energy and encouraging green technology transfer For each policy authors outline all of the costs benefits and likely outcomes in fully referenced clearly presented chapters accompanied by shorter critical alternative perspectives To further stimulate debate a panel of economists including three Nobel laureates evaluate and rank the attractiveness of the policies This authoritative and thought provoking book will challenge readers to form their own conclusions about the best ways to respond to global warming

Handbook of Nature-Based Solutions to Mitigation and Adaptation to Climate Change Gustavo J. Nagy,Desalegn Yayeh Ayal,2025-11-04 Over recent years nature based solutions NbS have gained popularity as tools to ameliorate the effects of climate change while slowing down the global warming process More specifically the potential of NbS has been explored in terms of meeting greenhouse gas emissions targets and fostering climate change adaptation NbS are methods that use and enhance nature to improve social and environmental challenges They involve several multifaceted actions that work sustainably to restore and protect the natural environment while helping people Therefore these solutions are useful in climate change adaptation and mitigation There are 3 main areas which NbS may target namely reducing exposure reducing sensitivity and supporting adaptive capacity Reducing exposure refers to protecting areas from existing climate change effects There is thus a perceived need to document and promote experiences related to NbS and to apply these in different contexts It is against this background that the Handbook of Nature Based Solutions to Mitigation and Adaptation to Climate Change is being produced The publication will showcase experiences related to NbS from around the world In particular it will gather examples of projects studies and the latest thinking on NbS which can serve the purpose of inspiring and fostering further works in this key area Thanks to its scope and thematic diversity the book will be of special interest to representatives from government organisations researchers and students from a wide range of natural and social sciences courses It will also provide useful information to practitioners and representatives from non governmental organisations
