Gauteng Business Question Paper 2014:

Business, Peacebuilding, and Regulation Sean Molloy, 2024-08-26 This book examines the relationship between business based peacebuilding and the opportunities that emerge from the pluralisation of regulation The core message is notwithstanding the broad range of regulatory initiatives and actors that exist in conflict affected settings the state should assume responsibilities for defining the types of contribution that business can and ought to make to peace It also demonstrates how the state through different forms and methods of regulation is well placed to engage businesses to do so It is particularly concerned with the potential for regulation to help address what is identified as a state of optimistic uncertainty in the field of business and peacebuilding On one level there is a sense of optimism around the types of contributions that businesses can and often do make as agents for peace On another there are varying degrees of uncertainty surrounding the actual peacebuilding impacts of business activities how businesses are to understand the ways in which to make these contributions and why businesses would do so Regulation this book will argue can play an important role in bridging the chasm between optimism and uncertainty This book will be of interest to those engaged not only with business and peacebuilding but also business and human rights business and development and business and the environment Moreover this book is also of contemporary interest in other ways the aftermath of the Ukrainian conflict as an example will require a concerted effort to rebuild that society after war Private sector actors could be a powerful vehicle for reconstruction and development and this book examines how regulation can be used to facilitate businesses involvement in peacebuilding efforts

Small and Medium-Sized Enterprises in International Economic Law Thilo Rensmann, 2017-06-09 International economic law with its traditional focus on large multinational enterprises is only slowly waking up to the new reality of small and medium sized enterprises SMEs entering the global marketplace In the wake of the digital revolution smaller companies now play an important role in the global economic landscape In 2015 the UN expressly called for SMEs to have greater access to international trade and investment and it is increasingly recognized that the integration of SMEs provides one of the keys to creating a more sustainable and inclusive global economy As SMEs increasingly permeate transnational supply chains so interactions between these companies and international economic law and policy proliferate Small and Medium sized Enterprises in International Economic Law offers the first comprehensive analysis of the interaction between SMEs and international economic law This book presents a broad international perspective gathering together contributions by leading experts from academia legal practice and international organizations It opens up a field of enquiry into this so far unexplored dynamic and provide a touchstone for future debate The analysis covers a broad spectrum of international trade and investment law focusing on issues of particular interest to SMEs such as trade in services government procurement and trade facilitation Diverse perspectives illuminate regional developments in particular within the EU and the implications of mega regional free trade agreements The essays also examine questions of

legitimacy of global economic governance in particular concerns surrounding the threat posed to the interests of domestic SMEs by the growing liberalization of international trade and investment These essays constitute essential reading for practitioners and academics seeking to navigate a previously neglected trend in international economic law *Knowledge and Change in African Universities* Michael Cross, amasa ndofirepi, 2017-01-28 Besides the ongoing concern with the epistemological and theoretical hegemony of the West in African academic practice the book aims at understanding how knowledge is produced and controlled through the interplay of the politics of knowledge and current intellectual discourses in universities in Africa In this regard the book calls for African universities to relocate from the position of object to subject in order to gain a form of liberated epistemological voice more responsive to the social and economic complexities of the continent In itself this is a critical expos of contemporary practices in knowledge advancement in the continent Broadly the book addresses the following questions How can African universities reinvent knowledge production and dissemination in the face of the dominant Eurocentricism so pervasive and characteristic of academic practice in Africa to enhance their relevance to the contexts in which they operate How can such change particularly at knowledge production and distribution levels be undertaken without falling into an intellectual and discursive ghettoization in the global context What then is the role of academics policy makers and curriculum and program designers in dealing with biases and distortions to integrate policies knowledge and pedagogy that reflect current cultural diversity both local and global Against this backdrop while some contributions in this book argue that emancipatory epistemic voice in African universities is not yet born or it is struggling with little success many dissenting voices charge that if Africans do not take responsibility and construct knowledge strategies for their own emancipation who will [ECRM 2020 20th European Conference on Research Methodology for Business and Management Studies](#) Dr. Manuel Au-Yong-Oliveira, Professor Carlos Costa, 2020-06-18 The European Conference on Research Methodology for Business and Management Studies was established 19 years ago This event has been held in countries across Europe including Ireland England France Malta Portugal Spain to mention only a few of the countries who have hosted it The conference is generally attended by participants from more than 25 countries The Electronic Journal of Business Research Methods indexed by Scopus publishes a special edition of the best papers presented at this conference The conference once again played host to the Innovation in Teaching of Research Methodology Excellence Awards [Suid-Afrikaanse Hofverslae](#) ,2014 *Bombardier Abroad* David P. Thomas, 2018-10-10T00:00:00Z In *Bombardier Abroad* Thomas examines several cases of the Canadian aerospace giant s work in the high speed rail sector in South Africa China Tibet and Israel Palestine and argues that these projects are deepening existing social and political tensions By participating in these infrastructure projects Thomas argues Bombardier is both inserting itself into highly contested social and political climates and profiting from actions that further exacerbate existing conditions of dispossession and inequality Thomas also examines the various ways in which the Canadian state supports the work of Bombardier in these countries

Centred around a theoretical framework that combines concepts of dispossession political economy and important interventions from the field of settler colonial studies Bombardier Abroad is a critical look at the problematic practices of a Canadian corporation and the ways in which the Canadian state is culpable

The African National Congress and the Regeneration of Political Power Susan Booysen,2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come

Illicit Financial Flows from South Africa Serges Djoyou Kamga,2021-09-21 This book examines the detrimental impact of illicit financial flows on South Africa s development political economy and transformation in the 21st century Over the years illicit financial flows have led to the systematic looting and channelling away of South African resources yet they are rarely studied by researchers looking to explain the country s underdevelopment and political economy This book looks across sectors showing that illicit financial flows cut across all the key pillars of development frustrating the betterment of peoples lives in South Africa Investigating the problem from a decolonial perspective the book delves deep into the catastrophic impacts of illicit financial flows for people and the economy discusses how the problem is being combatted and ultimately suggests solutions for rebuilding social trust between people and the state Making an important contribution to the decolonial debate as well as to discussions of South Africa s political economy this book will be of interest to researchers across African studies global development political science law and corruption studies
