Discovering Forms and Form Templates

In InfoPath 2003, you can fill out a form or use the design mode to create your own forms. When you fill out an InfoPath form, you will have different tool options, depending on the form's design. You can format the text you enter, insert tables and lists, add optional sections, check for errors, and save the form to your computer. These options are defined by the form's designer.

When you create a form in design mode, you actually create a form template. This allows you to have control over the form's design. You can define the form's structure, default content, types of controls, data validation rules, views, as well as what other users can and cannot modify.

Note: You must have InfoPath 2003 installed on your computer in order to fill out InfoPath forms.

 2. In the **Fill Out a Form** task pane, click the **On My Computer** shortcut under **Open a Form**.
 3. In the **Open dialog** box, click the arrow on the **Files of type** list and do one of the following:
 - To open a new form, select **Form Templates** from the resulting menu.
 - To open a saved form, select **Forms** from the resulting menu.
 4. In the **Look in** box, select the location that contains the form you want to open.
 5. Locate and select the form you want to open.
 6. Click the **Open** button.
- Note:** To fill out a new blank form based on the currently open form, click the **Fill Out a Form** [Fill Out a Form] button on the **Standard** toolbar or press **Ctrl + Shift + F**.
