

## Printer Error Message & Troubleshooting

Errors are listed into four general groups:

- Cartridge Error Messages/Cartridge Failures
- Ink System (Refill Bottle/Intermediate Reservoir) Error Messages
- Dryer System Error Messages
- Miscellaneous Error Messages

**NOTE:** service related actions should only be performed by qualified personnel.

### 1. Cartridge Error Messages/Cartridge Failures:

Review the explanation for ink system/cartridge error messages and the appropriate recovery process – additional error message/code information is provided at the end of this document. Make sure you report the following information completely and accurately:

1. The initial screen error message.
2. The message displayed after pressing the MORE INFO key.
3. The message displayed after pressing the failed cartridge associated error key (e.g., F1 = Black, F2 = Cyan, F3, = Magenta, etc.).

### Background Info - Error Classifications:

There are three basic types of cartridge errors:

1. ID-chip communication errors.
2. ID-chip data errors.
3. Internal cartridge errors (or insufficient ink delivery).

#### **Type 1: ID-chip communication errors (Example: "Pen Error – Code 4").**

This type of error is identified by a special code and it usually indicates there is a fault or bad connection with the ID-chip. The suggested course of action is to inspect the ID-chip and its connection to make sure the chip is making contact. Try reseating the cartridge - if no problems are detected, you should replace the cartridge and retest the system to verify valid ID-chip response with the new chip. Note: Additional information is available (but not necessary) if you press the associated error key (F1, F2, etc.) after navigating to the "Cart Info" display.
