- Domain means x values. Range means y values.
- These are the parent functions:

Linear Parent Function

Quadratic Parent Function

- Linear means line.
- How to graph a line:
 - Solve for y. (Get y by itself.)

- Example $2x - 3y = 12$

$$\begin{array}{r} -2x \qquad -2x \\ \hline -3y - 6 \quad -2x + 12 \\ -3 \qquad -3 \quad -3 \end{array}$$

$$y = \frac{2x}{-3} - 4$$

$\frac{2}{-3}$ is the slope -4 is the y-intercept

Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09
Our nation's schools stand at an important inflection point in the history of education. Taken together, the implementation of common college and career standards, the shift to next-generation assessments, the availability of affordable devices, and the growing number of high-quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student.

Digital Learning Now (DLN), a national initiative under the Foundation for Excellence in Education (ExcellinEd) in association with Getting Smart, brings Navigating the Digital Shift: Implementation Strategies for Blended and Online Learning to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark, Navigating the Digital Shift offers updated versions of the eight papers originally released in the DLN Smart Series, including contributions from 11 additional co-authors representing leading organizations such as Public Impact, the International Association for K-12 Online Learning (iNACOL), and The Learning Accelerator. Topics include blended learning implementation, teaching conditions and careers, competency-based learning, student data, online learning myths, and student-based funding.

Jeb Bush, Governor of Florida from 1999-2007 and Chairman of ExcellinEd, contends that the book provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement. AASA 2013 Superintendent of the Year, Dr. Mark Edwards, believes the collection provides meaningful, practical, and poignant advice, as well as commentary regarding the move to college and career-ready standards associated with the shift to personal online learning and digital resources.

Rhode Island's Commissioner of Elementary and Secondary Education, Deborah Gist, describes the book as an invaluable resource that will help educators re-imagine what our schools can look like and what our students can accomplish.

A Study of Student Achievement and Educational Intervention Strategies in Traditional and Virtual Format Algebra 1 Courses Within Volusia County School District Paul M. Nehrig, 2013 The purpose of this study was to compare achievement results of students enrolled in traditional and virtual Algebra 1 courses in the School District of Volusia County Florida and to identify which educational interventions are utilized by traditional and online teachers to promote student success especially for at risk populations Two research questions guided this study This study is significant as school districts expand virtual options for K 12 students to meet legislative mandates and student demand while also exploring and developing methods to ensure student success Student scores on the Florida Algebra 1 End of Course Exam EOC were compared to determine what difference if any existed in the performance of students in traditional face to face classrooms and virtual settings Surveys were also distributed to traditional brick and mortar and virtual teachers to identify which educational interventions were provided to at risk students and to measure teacher perception of the relative effectiveness of those interventions in each setting One sample t test results indicated a statistically significant difference in the mean scale scores of traditional and virtual students on the Florida Algebra 1 EOC Survey responses indicated little variation in the interventions provided by

teachers to at risk students in each setting Low effectiveness ratings for interventions in the Resources category such as Mentors from the Community warrant further investigation as these responses run counter to previous research Due to this study s small sample and wide disparity between the number of traditional and virtual students caution is advised in the interpretation of results
