Haldex

Controlled Response Height Control Valve

GENERAL INFORMATION

The Haldex Controlled Response (CR) Height Control Valve (HCV) automatically adds air to, or exhausts air from air suspension to maintain a constant static design height. The Type CR Height Control Valve does not respond to short duration dynamic changes in axle position.

- The Haldex Type CR HCV can be used for right hand or left hand and long or short control arm applications. Refer to installation instructions herein for proper plumbing connection.
- All valve ports are 1/8" NPT.
- Compression fittings for 1/4", 3/8" or metric tubing, or push-in fittings are available - specify when ordering.
- Optional dump functions are available using Part No. 90554902 or Part No. 90554335.
- Several different linkage assemblies can be purchased. Contact your Haldex Distributor for details.

NOTE: The Haldex Type CR can be interchanged with other brands of height control valves.

PRE-INSTALLATION INFORMATION

IMPORTANT: The Height Control Valve (HCV) and linkage are designed to maintain the vehicle ride height as loads increase and decrease. Proper set up of the HCV(s) is critical to the system performance. Prior to any assembly or disassembly, please read all instructions. Should you feel unable to properly perform the installation and adjustments of a Haldex Type CR HCV contact Haldex Technical Services or have a certified mechanic install or adjust the valve.

CAUTION: Incorrect installation of valves and associated components can impair suspension and vehicle performance. It is extremely important that the original equipment manufacturer's specifications of a one- or two-HCV system are followed when installing the air control system. Refer to vehicle and suspension manufacturer's instructions for recommended valve location.

DO NOT install a single height control valve of any type if the suspension or vehicle manufacturer specifies a two (2) height control valve system.

DO NOT use antifreeze or other solvents in air supply line. Use of solvents or antifreeze can damage seals and voids the valve warranty.

ALWAYS use a Pressure Protection Valve (PPV) and filter such as the Haldex Part Number 90554107. Attach PPV directly to the air reservoir for supply to the Type CR HCV.
