

# CLIA Inspection Checklist for LRII-C, RADIOBIOASSAY AND BIOMONITORING LABORATORIES

## INTRODUCTION

In 2009 the Centers for Medicare & Medicaid Services (CMS) released a memorandum stating chemical/biologic CT laboratories will be added to the CLIA certificate under the umbrella of the main laboratory. In order to help members prepare for CLIA inspection of their LRII-C program, APHL, with guidance from CMS, created this Checklist for LRII-C, Radioassay and Biomonitoring laboratories.

While this Checklist intends to provide guidance to CT laboratories preparing for a CLIA inspection, the document is NOT all-inclusive. Laboratories should be aware some topics or states may have slightly different or additional requirements. Also, some items listed in the document may not be applicable in all situations. If laboratories have any questions or are unclear about specific requirements, the CDC advises laboratories to contact their [regional CMS office](#).

For further exploration on the contents and acronym listed in the Checklist, please refer to the CLIA Inspection Guidance for LRII-C, Radioassay & Biomonitoring Laboratories document. The CDC strongly advises users of this Checklist to first read the Guidance Document before employing the Checklist. Also, CDC's Information Guidelines on CLIA include more detail for compliance.
