

## Answering Document-Based Questions

In one of your classes, perhaps a history class, you may need to respond to a document-based question (DBQ), often as part of an exam. A DBQ requires that you analyze a series of related documents such as excerpts from books, magazines, Web pages, diaries, or other text sources. You might also encounter visual documents such as photographs, maps, editorial cartoons, tables, graphs, or time lines.

In most cases, a DBQ asks you to write an essay, drawing information from the documents as well as from material you have previously learned. Sometimes you may need to glean information from one or more documents and present it in a different form, perhaps as a graph or a table. In either situation, you must work quickly and accurately because you have a limited time to form your response.

### WHAT'S AHEAD

This chapter will help you respond to document-based questions. It offers responding tips plus a sample DBQ with corresponding documents and response essay.

"It is better to debate a question without settling it than to settle a question without debating it."

—Joseph Joubert
