THE GALAXY IS IN CRISIS

Eleana Masera Scientist

One of our most prominent scientists has gone missing on Altara. Normally we would leave this to the local authorities, but she was currently working on a revolutionary new transforming technology capable of transforming continents, and maybe even planets, almost instantly. Our biggest concern is that in the wrong hands this technology could be a terrible weapon. She was last seen in the local shipyard attempting to hire a ship. We don't know if she found one, and if she did where she has gone.

What are your orders?

- Send investigators to help the authorities find out where she was trying to go when she vanished. **+15 Sentinel**
- Send researchers to investigate if this technology can be weaponized, we need it. **+15 Pragmatist**
- The locals can't handle this. Send someone to the shipyard to find out where she went. **+15 Militant**
